Casein Protein in Animal Feed Application Global Market Report 2024 - Market Size, Trends, And Global Forecast 2024-2033

How Has [the Casein Protein in Animal Feed Application Market Grown Recently?](#)

The casein protein in animal feed application market size has shown a rapid trajectory of growth in recent years. Growing from \$2.67 billion in 2023 to \$3 billion in 2024, the market illustrates a robust compound annual growth rate CAGR of 12.4%. Such noteworthy growth during the historic period can be traced back to various factors such as the expansion of the livestock industry, rising nutritional awareness, broadening international trade horizons, recent disease outbreaks, and altering consumer preferences favouring high-quality dairy and meat products.

“

Casein protein in animal feed application is projected to witness growth in few years, with an expansion to \$4.85 billion in 2028. This rapid growth, corresponding with CAGR of 12.8%”

*The Business Research  
Company*

The rapidly expanding animal health sector is marked as a crucial player propelling the growth trajectory of the casein

protein in animal feed application market. Uplifting the demand for casein protein, the increasing global animal health sector values at an impressive \$38.3 billion, marking a 12% increase in 2021, as cited by Health for Animals, a global animal health association.
