TOKYO, JAPAN, December 20, 2024 /EINPresswire.com/ --

The global battery raw materials market is projected to reach 878 billion USD by 2032, growing at a CAGR of 6.5%. This growth is driven by the increasing demand for electric vehicles (EVs) and the expansion of battery energy storage systems (BESS). Key players in the market include BASF SE, Celgard LLC, and ENTEK. The market is expected to be highly competitive, with significant investments in research and development to improve battery performance and reduce costs.
