alt.ai launches new corporate website □ Tracking the evolution of the clone world in real time based on "One P.A.I.®"

As the networking of P.A.I. advances, the construction of "World Clone" that reproduce reality in high-dimensional vector space will accelerate. This evolution will free humanity from labor and usher in a new phase of knowledge creation and non-linear productivity. alt's new website is a platform to help understand these processes in real time and share our incredible evolution toward building the society of the future.

We will keep striving to improve our services from the perspectives of all stakeholders, including our customers and shareholders, while also increasing our corporate value and working towards our mission of realizing a society where people around the world are freed from unproductive work and can live richer lives.
