

Vietnam Express Delivery Services Market on the Rise: Expected Demand of US\$ 4.88 billion by 2030

On the basis of application, the B2B segment is anticipated to exhibit a remarkable growth during the forecast period.

WILMINGTON, NEW CASTLE, DE, UNITED STATES, December 23, 2024 /EINPresswire.com/ -- The [Vietnam Express Delivery Services Market](#) was valued at \$0.71 billion in 2021, and is projected to reach \$4.88 billion by 2030, registering a CAGR of 24.1% from 2022 to 2030. Express delivery is the

fastest form of shipping that involves the delivery of various goods and products through different mediums such as air, water, and land. The customer pays an extra shipping cost for this type of delivery as the shipment will get transported to him anywhere between 24 to 72 hours depending on the distance of the shipment. In express shipping, the price and rates are also higher than other forms of transportation.
