

# Smarty by Huiyu Wang and Xiangyu Wang Wins Iron A' Design Award in Mobile Technologies, Applications and Software Design

*Innovative AI-Powered Virtual Keyboard  
Smarty Recognized for Excellence in  
Mobile Applications and Software Design  
by the A' Design Award and Competition*

COMO, CO, ITALY, December 24, 2024 /EINPresswire.com/ -- The A' [Design Award](#) and Competition, a highly respected and prestigious award in the field of [mobile](#) design, has announced Smarty by [Huiyu Wang and Xiangyu Wang](#) as the recipient of the Iron A' Design Award in the Mobile Technologies, Applications and Software Design category. This recognition highlights the significance of Smarty as an innovative and well-designed mobile application that aligns with industry standards and practices.

Smarty's recognition by the A' Mobile Technologies, Applications and Software Design Award is not only a testament to its exceptional design but also underscores its relevance to the needs and trends within the mobile industry. As an AI-powered virtual keyboard, Smarty offers practical benefits to users by enhancing real-life connections and streamlining interactions with AI chatbots, making it a valuable tool for a wide range of stakeholders in the mobile ecosystem.

What sets Smarty apart is its seamless integration of an AI chatbot into a virtual keyboard, providing users with a context-aware interface that simplifies the question-and-answer process. By analyzing user context through features like reading clipboard content and screenshots, Smarty eliminates the need for users to manually provide context each time they consult the

chatbot, resulting in a more efficient and intuitive user experience.

The Iron A' Design Award for Smarty serves as a motivation for Huiyu Wang and Xiangyu Wang, as well as their team at Fat, to continue pushing the boundaries of mobile app development. This recognition may inspire future projects that further merge technology with creativity, fostering innovation in the mobile industry without claiming dominance over competitors.

#### About Huiyu Wang and Xiangyu Wang

Huiyu Wang is the CEO of Fat, a company specializing in innovative mobile app development. FAT has gained recognition for creating solutions that enhance digital experiences for users worldwide. With a focus on empowering indie artists, Fat's flagship product, Handy, serves as a phone theme marketplace connecting over 1.5 million users with 300 artists. Huiyu Wang's dedication to merging technology with creativity drives Fat's success and sets it apart in the industry. Huiyu Wang and Xiangyu Wang are based in the United States of America.

#### About Fat, Llc

Fat is a vibrant mobile app studio, spanning its operations between New York City and Shanghai. Specializing in the complete lifecycle of consumer app development, from design to publication, Fat is committed to crafting playful applications that cater to user preferences. The studio holds a strong belief in the transformative potential of mobile apps, envisioning them as agents capable of making a positive impact on the world. Their mission revolves around creating innovative and captivating applications that not only fulfill user requirements but also elevate the overall mobile landscape, leaving a lasting impression on individuals' lives.

#### About A' Design Award

The Iron A' Design Award is a prestigious recognition granted to well-designed products, projects, services, and ideas that meet rigorous professional and industrial standards set by the A' Design Awards. Recipients of this award demonstrate a solid understanding of design principles, creativity in execution, and the ability to address real-world challenges through thoughtful design. The Iron A' Design Award acknowledges the skill and dedication of creators who develop practical innovations that contribute to their respective fields and improve quality of life. Winning designs are expected to be highly regarded, admired, and cherished creations that integrate industry best practices and provide fulfillment to users.

#### About A' Design Award

The A' Design Award and Competition is an esteemed international design competition that recognizes and promotes superior design across various industries. With a mission to make the world a better place through the power of good design, the A' Design Award motivates designers and brands to develop pioneering products and projects that positively impact society. The competition, now in its 16th year, welcomes entries from all countries and is judged by an expert

panel of design professionals, industry leaders, journalists, and academics. By providing a global platform to showcase innovative designs, the A' Design Award drives inspiration and advancement in the world of design.
