

Blog Chicks Commence Tree Health and Maintenance Features

Blog Chicks confirmed that interest in tree care has grown significantly recently, and they have commenced publishing features on tree health and maintenance

SYDNEY, NSW, AUSTRALIA, December 26, 2024 /EINPresswire.com/ -- [Blog Chicks](#) has been publishing on the web for over 15 years and is committed to meeting client needs in both the

information it provides readers and the technology it uses. As a leading Australian online lifestyle magazine, it has a long history of regularly featuring Australian industry sectors and companies.

Australian Bloggers

Their first article in a new series focused on tree health and care is valuable tips for the general care of trees. This can be viewed here: <https://blogchicks.com.au/how-to-keep-trees-healthy-on-your-property/>

The Blog Chicks team gets asked all the time about tree removal. The second feature is when a tree has ended its days on Mother Earth or poses a danger to a person or property. The team has been highly impressed with Sydney-based [MTS Tree Services](#) and has asked them for assistance with the second article on safe tree removal methods.

If immediate help is needed with storm-damaged trees, MTS Tree Services' fast response times and dedicated crew can assist. They are on call 24 hours a day for any emergency tree removal job.

Their tree surgeons can perform tree sculpting and tree felling. They can also assist with cutting and shaping any tree's branches without affecting the tree's health. They can also apply braces if needed.

Diane Muller, founder and content editor of Blog Chicks, said in her interview with 2006 Media, "We have been experiencing great growth in visitors to our online magazine over recent years. We have listened to our website visitors' feedback survey on the content and experience they seek. The features of tree care are in response to us listening to our readers. We have also seen the importance of staying at the leading edge of technology to keep in touch with our clients the way they expect and to communicate in the best way possible the array of information we provide to our website visitors."
