Projects*

DENVER, CO, UNITED STATES,  
December 27, 2024 /  
EINPresswire.com/ -- Senior designer  
Jennifer Rogers of Denver's BKC  
Kitchen and Bath was honored with the  
Gold Prize in the 'Bathrooms Less than  
\$75,000' division of the 2024 Master  
Design Awards for her Classic Charm  
Master Bath design. The prestigious  
award, presented by Qualified  
Remodeler magazine, celebrates  
outstanding remodeling projects that  
offer thoughtful solutions in the  
creation of exceptional projects.

This year, the [Qualified Remodeler  
Master Design Awards](#) competition

saw the highest number of entries in two decades, with submissions evaluated on aesthetic appeal, construction quality, problem-solving, attention to detail, functionality, and overall achievement. A distinguished panel of expert remodelers and designers selected gold, silver, and bronze award winners in each category, with BKC's Jennifer Rogers earning the top honor for her stunning bathroom renovation.

"Designing this bathroom was an exciting challenge, especially with the unique constraints of the space and the character of the 1912 Tudor home," explains BKC designer Jennifer Rogers. "We aimed to create a bathroom that felt both timeless and modern, full of elegance and warmth. The bespoke alder vanity became the focal point—its reeded detailing brings a contemporary touch while providing much-needed functionality. The custom two-piece design allowed us to

navigate the narrow staircase, resulting in a harmonious, beautiful space that reflects the clients' vision for their home."

The Master Design Awards are among the most prestigious in the remodeling industry, recognizing projects that demonstrate outstanding design and creativity. BKC's winning design was chosen for its seamless fusion of modern functionality and timeless elegance, transforming a limited space into a luxurious and highly functional bathroom.
