Report Coverage & Details:

Report Coverage Details

Forecast Period 2022–2031

Base Year 2021

Market Size in 2021 \$5 Billion

Market Size in 2031 \$9.1 Billion

CAGR 6.2%

No. of Pages in Report 280

Segments Covered

Door Type, Aircraft Type, End-User, Region

Drivers

Growing commercial aviation industry

Rising demand for number of aircraft deliveries

Persistent growth in international tourism and increase in demand for air travel as a convenient, safe, and time-efficient mode of transportation

Rising military budgets and increased use of technologically superior air carriers for defense purposes

Opportunities

New and upcoming aircraft programs

Restraints

Lack of hydraulic fluid compatibility

Rise in demand for fire-resistant fluids and zero leakage hydraulics

Precise maintenance schedules for monitoring fluid conditions on aircraft

The report offers a detailed segmentation of the global [aircraft doors](#) market based on door type, aircraft type, end-user, and region. The report provides an analysis of each segment and sub-segment with the help of tables and figures. This analysis helps market players, investors, and new entrants in determining the sub-segments to be tapped on to achieve growth in the coming years.

Based on door type, the passenger doors segment held the largest share in 2021, garnering more than one-fourth of the global aircraft doors market revenue, and is projected to maintain its dominance by 2031. However, the same segment would showcase the fastest CAGR of 7.0% during the forecast period. The other segments assessed through the study include emergency exits, cockpit door, cargo doors, and others.

Based on aircraft type, the commercial segment contributed to more than three-fifths of the global aircraft doors market share in 2021, and is projected to rule the roost by 2031. The same segment would also display the fastest CAGR of 6.5% throughout the forecast period. The report also analyzes the military segment.

Based on end-user, the OEM segment held the largest share in 2021, garnering more than two-thirds of the global aircraft doors market revenue, and is projected to maintain its dominance by 2031. The same segment would also showcase the fastest CAGR of 6.6% during the forecast period. The aftermarket segment is also assessed through the study.

Based on region, North-America held the major share in 2021, garnering more than half of the global aircraft doors market revenue. However, the Asia-Pacific region would showcase the fastest CAGR of 7.1% during the forecast period. The other provinces studied through the report include Europe, and LAMEA.
