

# Industrial 3D Printing Market Set to Surge from \$15 Billion in 2021 to \$107.7 Billion by 2031

*Market player positioning facilitates benchmarking and provides a clear understanding of the present position of the market players.*

The industrial 3D printing market share is expected to witness considerable growth, owing increase in demand for faster and efficient ways of manufacturing complex design objects "

*Allied Market Research*

WILMINGTON, NEW CASTLE, DE, UNITED STATES, January 2, 2025 /EINPresswire.com/ -- Allied Market Research published an exclusive report, titled, "[Industrial 3D Printing Market Size, Share, Competitive Landscape and Trend Analysis Report, by Component, by Technology, by End-User : Global Opportunity Analysis and Industry Forecast, 2021-2031](#)".

For more information, please visit: [www.alliedmarketresearch.com/request...ple/A17129](http://www.alliedmarketresearch.com/request...ple/A17129)

The industrial 3d printing market study further promotes a sustainable market scenario on the basis of key product offerings. On the other hand, Porter's five forces analysis highlights the potency of buyers and suppliers to enable stakeholders make profit-oriented business decisions and strengthen their supplier-buyer network.

The report provides an explicit global market breakdown and exemplifies how the opposition will take shape in the new few years to come. Rendering the top ten industry players functional in the market, the study emphasizes on the policies & approaches integrated by them to retain their foothold in the industry.

The analysis highlights the highest revenue generating and fastest growing segments. These insights are helpful in devising strategies and achieving a sustainable growth.

The industrial 3d printing market is studied on the basis of different segments. This makes the study well organized and resourceful along with promoting easy understanding.

The report a comprehensive data based on each segment of the industrial 3d printing market.

The industrial 3d printing market report encompasses driving factors of the market coupled with prime obstacles and restraining factors that hamper the market growth. The report helps existing manufacturers and entry-level companies devise strategies to battle challenges and leverage lucrative opportunities to gain a foothold in the global industrial [3d printing industry](#).

Key players in the market:

3D Systems, Arcam Ab (General Electric), Autodesk Inc, Canon Inc., Envisiontec, Inc., Eos GmbH. ExOne Company, General Electric Company, GE Additive.

HOGANAS AB, HP Inc., Materialise. OPTOMECH INC, Organovo Holdings, Inc., Protolabs, SLM Solutions. Stratasys Ltd. and Voxeljet AG.

Market Segments:

The industrial 3d printing market is segmented into Component, Technology and End-User.

The report offers an in-depth study of every segment, which helps market players and stakeholders to understand the fastest growing segments and highest grossing segments in the market.

The industrial 3d printing market is analyzed across the globe and highlight several factors that affect the performance of the market across the various region including North America (United States, Canada, and Mexico), Europe (Germany, France, UK, Russia, and Italy), Asia-Pacific (China, Japan, Korea, India, and Southeast Asia), South America (Brazil, Argentina, Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria, and South Africa).

The research report mainly focuses on the growth drivers and investment opportunities in the industry to assist companies in formulating strategies for taking a lead in the industrial 3d printing market. Additionally, the report also highlights the market restraints and challenges that the sector might face in the coming period.

Moreover, by using scientific tools like Porter's five forces, the competitive scenario of the domain is also presented in this study which helps the companies understand the dynamic nature of the market.

Key features of the report:

1 - Figure out the market dynamics altogether.

□ - Inspect and scrutinize the competitive scenario and the future industrial 3d printing market landscape with the help of different strictures including Porter's five forces.□□□□

□ - Understand the impact of different government regulations throughout the global health crisis and evaluate the industrial 3d printing market condition in the tough time.□□□□

□ - Consider the portfolios of the protruding players functional in the market in consort with the thorough study of their products/services.□□□□

□ - Have a compact idea of the highest revenue generating segment.□□□

□□□□□□□□ □□□□□□□□□□□□:

Along with the growth drivers and investment opportunities in the sector, the report also highlights the latest trends and developments in the industry. Also, the financial performance of the major companies in the industry is studied as part of the report.

To substantiate the information given in the report, interviews with major stakeholders in the industry are also provided, which helps businesses get a true picture of the sector.

The research operandi of the global industrial 3d printing market includes significant primary as well as secondary research. When the primary methodology encompasses widespread discussion with a plethora of valued participants, the secondary research involves a substantial amount of product/service descriptions.

Furthermore, several government sites, industry bulletins, and press releases have also been properly examined to bring forth high-value industry insights.

□□□ □□□□□□□□ □□ □□□ □□□□□□:

In 2021, the hardware segment accounted for maximum revenue in the industrial 3D printing industry, and is projected to grow at a notable CAGR of 22.1% during the forecast period.

The Stereolithography (SLA) and Fused deposition modeling (FDM) segments together accounted for around 53.2% of the industrial 3D printing trends in 2021.

The manufacturing segment accounts for the major portion of the industrial 3D printing market share in 2021.

North America contributed for the major fraction in the industrial 3D printing market size in 2021.

□□□□□□□□ □□□□□□ □□□□□□ : [www.alliedmarketresearch.com/purchas...iry/A17129](http://www.alliedmarketresearch.com/purchas...iry/A17129)

□□□ □□□□□□ □□□□□□:

Evaluation of market share for regional and country-level segments.

Market analysis of top industry players.

Strategic recommendations for new entrants.

All mentioned segments, and regional market forecasts for the next 10 years.

Market Trends (Drivers, Difficulties, Opportunities, Threats, Challenges, Investment Opportunities and Recommendations)

Strategic recommendations in the main business segment of the market forecast.

Competitive landscaping of major general trends.

Company profiling with detailed strategy, financial and recent developments.

Latest technological progress mapping supply chain trends.

The market study further promotes a sustainable market scenario on the basis of key product offerings. On the other hand, Porter's five forces analysis highlights the potency of buyers and suppliers to enable stakeholders make profit-oriented business decisions and strengthen their supplier-buyer network.

The report provides an explicit global industrial 3d printing market breakdown and exemplifies how the opposition will take shape in the new few years to come. Rendering the top ten industry players functional in the market, the study emphasizes on the policies & approaches integrated by them to retain their foothold in the industrial 3D printing industry.□□□
