"Navy Veterans still make up the largest single work group who will develop mesothelioma or asbestos exposure lung cancer because they might have had so much exposure to asbestos on a ship, submarine or at a shipyard. Most navy veterans who develop mesothelioma or asbestos exposure lung cancer were involved in maintaining or repairing equipment or machinery on their ship or submarine, they worked in a ship's engine room, or they were assigned to stay on their ship and assist shipyard workers with repairs to their ship or submarine. Frequently a navy veteran's exposure to asbestos at a shipyard would have been off the charts.

"If your husband or dad is a navy veteran who has just been diagnosed with mesothelioma or

asbestos exposure lung cancer anywhere in Louisiana, please call the Gori Law Firm anytime at 866-532-2106. When it comes to client compensation for mesothelioma or asbestos exposure lung cancer in Louisiana the Gori Law Firm has no equal." www.gorilaw.com
