

Smart Pillbox Launches HealthBuddy App to Improve Medication Adherence

Smart Pillbox Unveils HealthBuddy App to Enhance Medication Adherence with Smart Alerts, Caregiver Support & Real-Time Insights – Free for a Limited Time!

TAMPA, FL, UNITED STATES, January 6, 2025 /EINPresswire.com/ -- Smart Pillbox, a pioneering health-tech innovator, proudly announces the launch of its Smart Pillbox

HealthBuddy App, designed to tackle the global challenge of medication adherence while empowering users with a seamless, tech-driven experience.

The Smart Pillbox HealthBuddy App redefines medication adherence by allowing users to organize as many medications as they need, set tailored reminders, and easily share adherence data with caregivers—all from a user-friendly interface.

Studies show that nearly 50% of medications are not taken as prescribed, leading to over \$300 billion in avoidable healthcare costs annually.

This latest healthcare trend led to the introduction of Remote Therapeutic Monitoring (RTM) program by the Centers for Medicare & Medicaid Services (CMS), a recognized service for monitoring therapy adherence, response, and outcomes data via connected devices.

The Smart Pillbox HealthBuddy App directly addresses these challenges, supporting users in achieving better health outcomes.

□□□ □□□□□□□□ □□ □□□ □□□□□□□□□□□□ □□□:

- 1)Track Medications: Track multiple prescriptions, including dosages, timings, and specific instructions, all in one place.
- 2)Smart Alerts: Personalized notifications help users stay on track with their unique schedules.

3)Caregiver Connectivity: Share adherence updates with loved ones or healthcare providers for added support.

4)Real-Time Insights: Monitor health trends and make data-informed decisions for improved wellness.

5)Free to Use for a Limited Time: Experience the premium features without charge during the initial launch phase. (Regular subscription: \$2.99/month.)

“We are committed to empowering individuals with tools and technology that simplify their routines and improve their overall health outcomes.” said ANDREW BLASY, CRO of Smart Pillbox.

The [Smart Pillbox Real-Time Insights App](#) is now available for download on iOS and Android. Don't miss the opportunity to take charge of your health today.

Download the app or visit pillbox.health for RTM partnership models details.
