

# Smart Pillbox to Present AI-Powered Healthcare Solutions at CES 2025

*Smart Pillbox debuts AI-powered health tech at CES 2025, revolutionizing medication adherence for patients, providers, and investors.*

TAMPA, FL, UNITED STATES, January 3, 2025 /EINPresswire.com/ -- [Smart Pillbox](#), a leader in health-tech innovation, is set to showcase its latest advancements at CES 2025, one of the

most prominent global technology events. Visitors will have the opportunity to explore the Smart Pillbox HealthBuddy App and get an early look at the upcoming Smart Pillbox device, with guidance from the company's healthcare experts, who bring over 20 years of experience in the industry.

## Revolutionizing Medication Adherence with AI

Smart Pillbox is poised to introduce an innovative solution that addresses the growing challenge of medication adherence in healthcare. Through the integration of AI-powered features, the upcoming Smart Pillbox system is designed to help patients, caregivers, and healthcare providers streamline medication adherence and improve patient outcomes.

By combining the HealthBuddy App with the new device, Smart Pillbox offers a comprehensive solution for organizing medications, delivering timely reminders, and enabling real-time tracking. This integrated system aims to reduce healthcare costs by improving medication adherence and providing valuable insights for both patients and healthcare professionals.

## What to Expect at CES 2025

### Smart Pillbox HealthBuddy App:

Visitors will learn how the app's intelligent reminders, tracking capabilities, and caregiver connectivity can help improve medication adherence and patient care.

### Preview of the Smart Pillbox Device:

The next-generation pillbox will be on display, designed to seamlessly connect with the

HealthBuddy App to provide real-time data on medication adherence and usage.

#### Exploring B2B Collaboration Opportunities:

Healthcare providers, pharmacies, and hospitals are invited to explore how Smart Pillbox's offerings can enhance their patient services. With the integration of Remote Therapeutic Monitoring (RTM), healthcare organizations can use adherence data to improve patient outcomes while also exploring new revenue streams through Medicare reimbursement programs.

#### Join Smart Pillbox at CES 2025

Smart Pillbox is committed to driving innovation and fostering collaborations that enhance the efficiency and effectiveness of healthcare systems. Attendees at CES 2025 can meet with the Smart Pillbox team to learn more about how these innovative solutions are shaping the future of medication adherence.

"We are excited to share our vision of a more connected, efficient healthcare system at CES 2025," said Andrew Balsy, CRO of Smart Pillbox. "Our goal is to empower healthcare providers with the tools they need to improve patient care, reduce costs, and streamline medication adherence."

#### Event Details

Join Smart Pillbox at CES 2025 from January 7th to 10th at the Venetian Expo, Halls A-D, Booth Number 55433.
