

K-12 Grant Helps Schools Support At-Risk Students

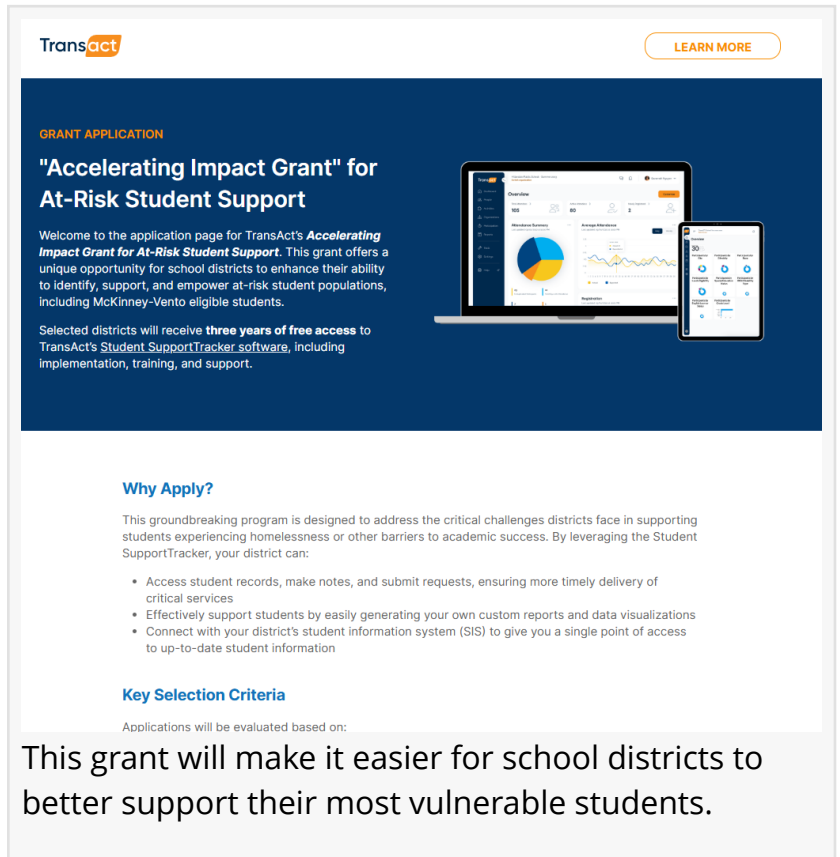

New three-year program is tailored to school district officials combatting student homelessness and other barriers to academic success

LYNNWOOD, WA, UNITED STATES, January 8, 2025 /EINPresswire.com/ -- TransAct, a leader in operational and compliance software for the education sector, today announced the Accelerating Impact Grant for At-Risk Student Support, a groundbreaking initiative designed to assist school districts in addressing the needs of McKinney-Vento eligible and other at-risk student populations. Through this program, three selected school districts will receive a three-year grant, providing Student Support Tracker software and comprehensive support at no cost.

This innovative software solution provides school staff who support McKinney-Vento eligible students with a single, access-controlled, digital case management tool for managing process referrals and requests, tracking case notes and services provided, and sending notifications to key student stakeholders when events occur in a student's life. The platform is used throughout the country and is based on findings from TransAct's widely recognized Nationwide McKinney-Vento Study, now in its third year.

Providing a three-year grant to Student Support Tracker reinforces TransAct's commitment to creating equitable opportunities for all students, especially those facing homelessness or other significant barriers to academic success.

"At TransAct, we understand the challenges school districts face in providing timely and effective interventions for at-risk students," said Nate Brogan, CEO at TransAct. "With this grant, we aim to remove financial barriers and equip educators with the tools they need to support every student,

GRANT APPLICATION

"Accelerating Impact Grant" for At-Risk Student Support

Welcome to the application page for TransAct's **Accelerating Impact Grant for At-Risk Student Support**. This grant offers a unique opportunity for school districts to enhance their ability to identify, support, and empower at-risk student populations, including McKinney-Vento eligible students.

Selected districts will receive **three years of free access** to TransAct's **Student SupportTracker** software, including implementation, training, and support.

Why Apply?

This groundbreaking program is designed to address the critical challenges districts face in supporting students experiencing homelessness or other barriers to academic success. By leveraging the Student SupportTracker, your district can:

- Access student records, make notes, and submit requests, ensuring more timely delivery of critical services
- Effectively support students by easily generating your own custom reports and data visualizations
- Connect with your district's student information system (SIS) to give you a single point of access to up-to-date student information

Key Selection Criteria

Applications will be evaluated based on:

This grant will make it easier for school districts to better support their most vulnerable students.

With this grant, TransAct aims to remove financial barriers and equip educators with the tools they need to support every student, regardless of circumstance.”

Nate Brogan, chief executive officer at TransAct

regardless of circumstance.”

The Accelerating Impact Grant for At-Risk Student Support is now open for applications. The deadline for submissions is Monday, March 10, 2025. Any public school district may apply and will be selected based on their demonstrated need, commitment to student support, and potential impact of the software.
