1. Patented Design (Patent No. US6863617) - A unique shape and construction that promotes a flawless putting stroke.
2. Build Muscle Memory - Practice anywhere—indoors or on the green—to develop a smooth, repeatable stroke that becomes second nature.
3. Master the Level Putting Plane - By keeping your putter head level, you eliminate face-angle errors, enhance distance control, and refine your overall stroke path.
4. Consistency & Accuracy - A level plane translates to consistent ball striking, reduced variability, and precise targeting.
5. Impact Efficiency & Predictability - The ideal loft and angle at impact ensures maximum energy transfer, while a square club face produces a truer roll and greater speed control.
