# Myersventure by Leying Bi and Baocheng Chen Wins Iron A' Design Award in Mobile Technologies Category

Innovative Social Networking App Myersventure Receives Iron A' Design Award Recognition for Excellence in Mobile Technologies, Applications and Software Design

COMO, CO, ITALY, January 8, 2025 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of mobile design, has announced Myersventure by Leying Bi and Baocheng Chen as the recipient of the Iron A' Design Award in the Mobile Technologies, Applications and Software Design category. This prestigious recognition highlights the significance of Myersventure within the mobile industry, positioning it as a noteworthy and innovative design that aligns with current trends and needs.

Myersventure

Myersventure's recognition with the A' Mobile Technologies, Applications and Software Design Award demonstrates its relevance to the mobile industry and potential users. By seamlessly integrating smartwatches and smartphones, Myersventure offers a delightful and privacy-focused social networking platform that caters to the needs of young individuals. The app's incorporation of gamified elements and augmented reality features aligns with the evolving standards and practices within the mobile industry, providing practical benefits and an enhanced user experience.

What sets Myersventure apart is its unique approach to social networking, centered around the Myers-Briggs personality test. By leveraging this psychological framework, the app accurately matches users with their target social groups, fostering meaningful connections and interactions. The seamless integration of online and offline social behaviors through the concept

of the metaverse and augmented reality services reshapes the social process, offering users a whimsical and adventurous social journey. Myersventure's functionality, aesthetics, and innovative aspects make it stand out in the market.

The Iron A' Design Award recognition for Myersventure serves as a motivation for Leying Bi and Baocheng Chen to continue pushing the boundaries of mobile design and social networking experiences. This achievement may inspire future projects and directions within their brand, fostering further innovation and exploration in the field. The award acknowledges Myersventure's potential to influence industry standards and inspire other designers and developers to create engaging and user-centric mobile applications.

Team Members

Myersventure was designed by a talented team led by Leying Bi, a UX/UI designer who focuses on mechanism design and is passionate about exploring gamified interaction mechanisms. Leying Bi collaborated with Chen Baocheng, who was responsible for the perfect presentation of the UI in this work. The team also included Tan Chuyan, who contributed to the project's success.

Interested parties may learn more about Myersventure and its award-winning design at the dedicated page on the A' [Design Awards](https://competition.adesignaward.com/ada-winner-design.php?ID=153067) website: https://competition.adesignaward.com/ada-winner-design.php?ID=153067

About Leying Bi and Baocheng Chen
Leying Bi is a UX/UI designer from China who focuses on mechanism design and is passionate about exploring gamified interaction mechanisms. With a desire to bring more enthusiasm and dreaminess to young people's lives through design, Leying Bi has received recognition from IDA and Core77. In the future, Leying Bi hopes to study abroad and establish a design team. Recently, Leying Bi has been exploring game design with narrative deciphering elements. Leying Bi collaborated with Chen Baocheng, who was responsible for the perfect presentation of the UI in Myersventure.

About Myersventure
Myersventure is an innovative social networking application that seamlessly integrates smartwatches and smartphones to provide users with a unique and engaging social experience. By leveraging the Myers-Briggs personality test, Myersventure accurately matches users with their target social groups, fostering meaningful connections and interactions. With its gamified elements and integration of augmented reality, Myersventure pushes the boundaries of individual interactions, offering young people a captivating and enjoyable social journey. The app not only fulfills the expectations of young users for exciting new relationships but also creates a whimsical and adventurous social experience.

About A' Design Award

The Iron A' Design Award is a prestigious recognition granted to good designs that meet the rigorous professional and industrial standards set by the A' Design Awards. Designs bestowed with this title demonstrate a solid understanding of design principles, creativity, and practical innovations that contribute to their respective fields. The Iron A' Design Award acknowledges works that provide solutions to improve quality of life and foster positive change, showcasing the skill and dedication of their creators. The award is given to designs that excel in user interface clarity, responsive design efficiency, innovation in functionality, aesthetic appeal, ease of navigation, security measures, performance optimization, integration of features, customization options, accessibility standards, cross-platform compatibility, battery efficiency, data management, user feedback implementation, social media integration, multi-language support, augmented reality implementation, voice command recognition, gesture control integration, and artificial intelligence utilization within the Mobile Technologies, Applications and Software Design category.

About A' Design Award
The A' Mobile Technologies, Applications and Software Design Award is a highly regarded competition that recognizes exceptional design work in the mobile and software design industries. Welcoming entries from pioneering mobile designers, inventive design agencies, progressive companies, leading technology manufacturers, and influential brands, the award provides a platform to showcase creativity and gain international recognition. The competition is judged by a world-class jury panel of design professionals, mobile industry experts, journalists, and academics who evaluate entries based on pre-established criteria. By participating in the A' Design Award, entrants have the opportunity to demonstrate their remarkable mobile design capabilities and contribute to the advancement of the industry. Winning the A' Design Prize for Mobile Technologies, Applications and Software Design offers international acclaim and enhanced status within this competitive field. The A' Design Award, now in its 16th year, is driven by a philanthropic mission to make the world a better place through the power of good design, motivating designers and brands to develop superior products and projects that positively impact society.
