Covid-19 Scenario:

〇 The outbreak of the COVID-19 pandemic impacted the growth of artificial intelligence (AI) in social media market in a positive way.

⬜ This is due to the rise in the work from home trend, which compelled employers to use AI-based social media, thereby driving the AI in the social media market growth. People remained at home during the lockdown, and this led to the increased usage of social media applications.

⬜ Additionally, the pandemic had significantly impacted the advertising industry. Many companies cut back on their ad spends, leading to an increased focus on ROI and a greater reliance on AI-powered advertising tools to help maximize the effectiveness of ad campaigns.

Thanks for reading this article, you can also get an individual chapter-wise section or region-wise report versions like North America, Europe, or Asia.

If you have any special requirements, please let us know and we will offer you the report as per your requirements.

Lastly, this report provides market intelligence most comprehensively. The report structure has been kept such that it offers maximum business value. It provides critical insights into the market dynamics and will enable strategic decision-making for the existing market players as well as those willing to enter the market.
