The seven artists include one from Japan and six from Taiwan. They use materials such as Chinese ink, color ink, and other media to create works that encompass landscapes, flowers, calligraphy, and more, offering a rich variety of content. The artists skillfully intertwine traditional artistic techniques with contemporary expressions, infusing their works with fresh vitality. Through various painting techniques, they create visually striking effects with a strong sense of depth and clear layers. These works not only showcase a profound cultural heritage but also bring the unique charm of modern creativity, offering viewers a visual feast that is both historically rich and innovatively thought-provoking.

The Expo Metro Miami Beach will be showcased along the bustling Ocean Drive, a popular destination for tourists, and in conjunction with local cultural festivals, it is expected to attract over 50,000 visitors. This exhibition is not only about art display but also serves as a platform for cultural exchange, allowing artists from diverse backgrounds to present the rich and varied artistic languages of the world through their works. The participation of artists from Japan and Taiwan provides a unique opportunity to showcase the beauty of Eastern art and offers a fantastic chance for global audiences to gain a deeper understanding of Asian culture.
