

DEXA Announces Successful NEPA Testing Results Highlighting Safety Excellence and Environmental Responsibility

This result demonstrates the company's commitment to excellence and positive environmental impacts.

DAYTON, OH, UNITED STATES, January 9, 2025 /EINPresswire.com/ -- DEXA, an innovator in drone

Completing the PEA Checklist is a big win for DEXA, the FAA, and the industry at-large."

Russell Kline, Chief Regulatory Officer

delivery solutions, is proud to announce the successful completion of the National Environmental Policy Act (NEPA) testing with a Finding of No Significant Impact (FONSI).

NEPA noise testing is a crucial component of the environmental review process, ensuring that noise impacts are carefully evaluated and managed to protect public health and environmental quality. This result demonstrates

the company's commitment to excellence and positive environmental impacts.

DEXA was the first drone operator to utilize the FAA's Programmatic Environmental Assessment (PEA) Checklist for North Carolina. This newly designed process allows DEXA to operate in already-approved areas without costly, redundant environmental studies. Russell Kline, Chief Regulatory Officer at DEXA shared, "Completing the PEA Checklist is a big win for DEXA, the FAA, and the industry at-large. Being the first company to be evaluated against these criteria and utilize this new, streamlined process shows everyone that the process works and that DEXA is a central player in drone delivery."

DEXA is committed to reducing its environmental impact using eco-friendly drone technology. The successful NEPA testing results confirm that operations comply with environmental policies, contributing to a more sustainable future. By minimizing emissions and reducing the reliance on traditional delivery methods, DEXA plays a pivotal role in promoting environmental responsibility.

"Our successful NEPA testing results reflect our unwavering commitment to environmental stewardship," said Beth Flippo, CEO of DEXA. "We are dedicated to operating responsibly and sustainably while providing innovative delivery solutions that meet the needs of our customers.

We aim to create a better future, leaving the world a better place for our children."

About DEXA

DEXA (Drone Express) is an aviation innovator transforming last-mile logistics through autonomous drone delivery. Founded in 2021, DEXA delivers safe, reliable, eco-friendly packages to customers nationwide. The company has secured strategic partnerships with The Kroger Company, Papa John's International, Winsupply, and other retailers. Currently in the FAA's Part 135 Unmanned Air Carrier Certification program, DEXA is poised to become one of the few U.S. companies authorized to conduct unmanned beyond visual line of sight (BVLOS) deliveries.
