“

Education teaches us how to think. Indoctrination teaches us what to think.”

Dave Osh

Raised in Israel, Osh’s worldview was shaped by the dominant narratives he was exposed to, including limited perspectives on the Israeli-Palestinian conflict. The turning point came when he learned about the Nakba—an event that had been absent from his education. “It was a moment of reckoning,” Osh explains. “I realized I had only been taught one side of a multifaceted history.”

Relevance Amid Ongoing Conflict

The war in Gaza has reignited global conversations about peace and reconciliation. Osh’s TEDx talk offers a timely perspective on how understanding different narratives can pave the way for dialogue and resolution. By drawing parallels between the Israeli-Palestinian conflict and Northern Ireland’s Troubles, Osh highlights the potential for unity in even the most polarized situations.

Universal Lessons for a Divided World

With the war in Gaza ongoing and tensions running high, Osh's message is both timely and urgent. His talk challenges audiences to reflect on their own biases and the narratives they've accepted without question. "It's not just about the Israeli-Palestinian conflict," Osh explains. "It's about how we, as individuals and societies, can move from division to dialogue and from indoctrination to education."

Personal Transformation to Global Relevance

Osh, who served as a fighter pilot in the Israeli Air Force for 20 years, shares his personal journey of unlearning and relearning. His story is a powerful example of how challenging ingrained beliefs can lead to a broader, more inclusive worldview. He also emphasizes the importance of critical thinking in fostering understanding and resolving conflicts.

Historical Lessons and Future Hope

Osh's talk draws on the lessons from Northern Ireland, where decades of division and violence were ultimately addressed through the Good Friday Agreement. "If peace can be achieved there, it can be achieved anywhere," Osh asserts. He believes the Israeli-Palestinian conflict can also move toward resolution by applying similar principles of dialogue and inclusiveness.
