

# Onyx Releases support for CMS Patient Access API Metrics in OnyxOS

*OnyxOS Winter'24 Edition adds OnyxInsights feature, delivering API & Dashboard that collect metrics to comply with the CMS Prior Authorization Rule.*

MISSION HILLS, KS, UNITED STATES, January 10, 2025 /EINPresswire.com/ -- [OnyxOS](#) is recognized as the premier FHIR-based Interoperability Compliance solution. Onyx is continually enhancing the platform to stay ahead of compliance requirements for our clients.

The CMS [Prior Authorization Rule](#) (CMS-0057) requires Payers to publish annual metrics for their Patient Access API. Reporting must be completed by March 31, 2026 for Calendar Year 2025 and the metrics must be published to CMS. The details for the transmission of the data will be published by CMS later this year. OnyxOS will support those publication requirements. In the meantime, OnyxOS is capturing the data that are needed to compile Patient Access API metrics. All OnyxOS client platforms have been updated with the Winter'24 Metrics Update.

“

This OnyxOS update highlights our commitment to keeping our clients ahead of their compliance requirements and demonstrates how OnyxOS is the market leading FHIR Interoperability platform for Payers”

*Balaji Narayanan, Chief Product Officer, Onyx Health*

“This OnyxOS release highlights our commitment to keeping our clients ahead of their compliance requirements and demonstrates how OnyxOS is the market leading FHIR Interoperability platform for Payers”

Balaji Narayanan  
Chief Product Officer, [Onyx Health](#)

The Winter'24 Update includes the Onyx Insights API and a new Reporting Dashboard.

Onyx Insights adds a number of new APIs to the OnyxOS platform. The extraction API is run daily

to compile data from OnyxOS services. The data is loaded to a NoSQL data store where retrieval APIs enable Patient Access API metrics to be analyzed. The Reporting Dashboard presents the resulting analysis in an easily understandable form, to enable a Payer to comply with the emerging reporting requirements from CMS.

Onyx Insights API and Reporting Dashboard are available as an update to all OnyxOS clients. The release makes it simple for Payers to comply with CMS Patient Access Reporting Requirements.

### About Onyx Technology

Onyx Health is a leader in healthcare interoperability, offering cutting-edge solutions that enable health plans and healthcare organizations to meet regulatory requirements, improve data exchange, and enhance patient care. With a focus on leveraging FHIR standards, Onyx Health helps healthcare organizations navigate the complexities of healthcare data management.
