Increase in production of various aircraft models, the growth in the space industry, and surge in use of high-temperature honeycomb sandwich in the space and aircraft industry have boosted the growth of the global high-temperature honeycomb sandwich materials market. However, high production cost and high raw material cost hinder the market growth. On the contrary, rise in commercial aircraft delivery and increase in popularity of LED honeycomb and 3D printing would open new opportunities in the future.

The global high-temperature honeycomb sandwich materials market includes an in-depth analysis of the prime market players such as Corex Honeycomb, Eco Earth Solutions, EconCore N.V., Hexcel Corporation, Honylite Private Limited, Pacific Panels, Plascore Inc., Schutz GmbH & co., KGaA, The Gill Corporation, and Ulbrich Stainless Steels and Special Metals Inc.
