

New Children's Book 'Pippin's River Rescue' Inspires Kids to Protect Wildlife and Our Planet

A powerful message about wildlife protection that combines with an engaging children's book.

ADELAIDE, SOUTH AUSTRALIA, AUSTRALIA, January 14, 2025 /EINPresswire.com/ -- Julia Seaborn's latest children's book, "Pippin's River Rescue," is an exciting story with a powerful message for young readers. This engaging adventure introduces the dangers of discarded fishing nets and plastic waste, showing children how their actions can protect wildlife and the environment.

A Thrilling Adventure with a Purpose

Pippin, the cuddly black poodle, loves his days at the river. But when Rocket, a young dolphin, becomes tangled in an abandoned fishing net, Pippin and his animal friends must work together to save him. With courage, teamwork, and a clever idea, they free Rocket just in time. The story concludes with Pippin and his mummy pledging to clean up the river, teaching readers the importance of litter-free waterways.

The environmental message in "Pippin's River Rescue" resonates with real-world issues like ghost fishing nets and plastic pollution, both of which endanger marine life across the globe. The book empowers children to take small actions, such as picking up litter, to make a big difference in their communities.

Inspiration Behind the Story

Author Julia Seaborn shares, “My walks along the Port River with my miniature poodle, Pippin, inspired this story. Adelaide, in South Australia, is home to a group of bottlenose dolphins that live in the city’s Port River—we are very lucky. These beautiful creatures deserve our protection, and I wanted to create a story that encourages children to care for wildlife and our planet.”
