

IT-Conductor ChAI™ (CHange Automation Intelligence) Now Available on SAP® Store

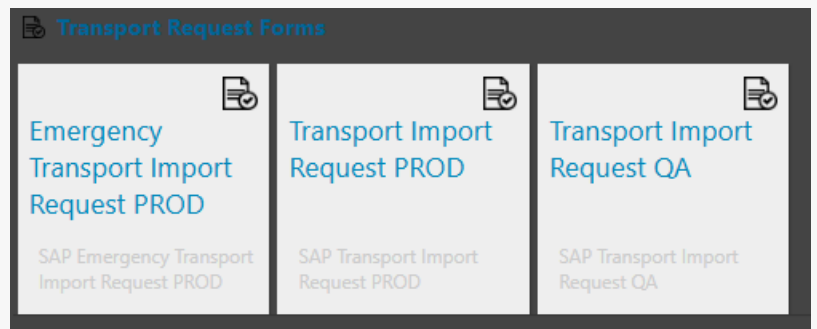

IT-Conductor ChAI™ for SAP delivers automated Change Management of SAP transports to accelerate deployments, mitigate risk, and enhance the compliance processes

CUPERTINO, CA, UNITED STATES, January 16, 2025 /EINPresswire.com/ -- IT-Conductor today announced that its IT-Conductor ChAI™ (Change Automation Intelligence) solution is now available on SAP® Store, the online marketplace for SAP and partner offerings. IT-Conductor ChAI™ integrates with SAP NetWeaver and SAP S/4HANA to streamline the transport request lifecycle, from submission to deployment, and offers real-time oversight, automated workflows, and flexible governance. This advanced approach reduces manual effort, lowers risks, and ensures compliance across SAP landscapes.

"With IT-Conductor ChAI™, organizations can automate their transport request management, enhancing operational efficiency while minimizing the risks associated with manual processes. Our solution brings a level of intelligence and automation to change management that ensures SAP teams can stay focused on more strategic, high-value tasks," said Linh Nguyen, CEO, and co-founder of IT-Conductor.

IT-Conductor ChAI Change Requests

Key Features and Benefits of IT-Conductor ChAI™ on SAP-Store:

1). Automated Transport Request Management: Streamlines the entire transport request lifecycle in SAP NetWeaver and SAP S/4HANA, reducing manual effort and increasing accuracy.

2). Real-time Monitoring and Alerts: Provides real-time dashboards and automated notifications to monitor transport requests and quickly identify any issues.

3). Risk Mitigation: Reduces the likelihood of errors in transport requests, minimizing the risk of production disruptions and costly remediation efforts.

4). Improved Compliance and Auditability: Ensures complete audit trails for all transport

activities, helping organizations meet regulatory requirements and strengthen governance over change management processes.

5). Customizable Workflow Management: Offers flexibility to tailor workflows to specific business needs, ensuring control over transport processes across SAP landscapes.

6). Enterprise Integration: Dynamic integration with customers' enterprise applications such as IT Service Management (ITSM), Identity Management, and Notification platforms.

IT-Conductor ChAI™ for SAP orchestrates the end-to-end workflow of implementing changes in SAP with efficiency and intelligence giving customers full compliance and control of SAP transports 24x7"
