The Sacred Geometry Drawing App allows users to create and export intricate geometric designs with ease. Built from the ground up for creative professionals and enthusiasts, the app combines cutting-edge tools with a user-friendly interface, making it an essential companion for exploring the mathematics of nature and the universe.

The update builds on the app's innovative foundation, offering improved performance and a more seamless user experience. Updates include enhanced drawing precision, faster rendering capabilities, and new customization options, ensuring users have the most powerful tools at

their fingertips.

“This is the app that I wish I had when I first started using tablets with my tattoo work,” says Dillon Forte. “With this update, we’ve taken feedback from our users to make it even better. Sacred Geometry Drawing App opens up a world of design possibilities for both beginners and experienced creators.”

Over the past decade, Forte has leaned heavily into technology to bring client and personal design ideas to life, using Wacom tablets, iPads, and freehand techniques. Frustrated by the lack of intuitive tools for geometric design, he spent the past year refining this app, ensuring it caters to the unique needs of artists worldwide.

Dillon Forte

Dillon Forte has built a reputation for staying on the cutting edge of technology. He has achieved jaw-dropping feats, such as being the first artist to tattoo underwater, collaborating on custom tattoo machines, and opening the first “tattoo ranch” in the United States. As a renowned figure in sacred geometry and black dot tattooing, he has attracted a clientele including Usher, Chris Hemsworth, Kat Von D, and Kehlani.

Whether you're a tattoo artist or someone who appreciates the beauty of symmetry, the Sacred Geometry Drawing App promises an enhanced creative journey.
