

DNV Business Assurance Certifies American Energy Storage Innovations to ISO 9001, 14001 and 45001

The certifications reflect AESI's commitment to quality, environmental responsibility and workplace safety.

BOSTON, MA, UNITED STATES, January 16, 2025 /EINPresswire.com/ -- DNV Business Assurance Inc. (DNV) is pleased to announce that American Energy Storage Innovations, Inc. (AESI), a leading Massachusetts-based manufacturer of grid-scale battery energy storage systems (BESS), has earned integrated certification for [ISO 9001](#), [ISO 14001](#) and [ISO 45001](#).

Attainment of these internationally recognized certifications reflects AESI's comprehensive approach to operational excellence:

These certifications help AESI build trust and operate responsibly, showcasing leadership in energy innovation while prioritizing people and the planet."

Gary Davis, Business Assurance Regional Manager for the Americas at DNV

approach to operational excellence:

- ISO 9001 ensures robust quality management processes
- ISO 14001 demonstrates a commitment to improving their environmental footprint
- ISO 45001 highlights AESI's focus on creating a safe and healthy work environment

By organizing to these standards, AESI reinforces its leadership in the BESS industry and its commitment to responsible business practices.

"Achieving certification to ISO 9001, 14001 and 45001 is a testament to our team's dedication to delivering reliable, sustainable solutions for the BESS sector," said Rick Cwiakala, Vice President of Operations for AESI. "These milestones demonstrate our focus on continuous improvement — in quality, environmental stewardship and workplace safety — and reinforce our mission to

provide the best possible BESS for our stakeholders and customers."

Gary Davis, Business Assurance Regional Manager for the Americas at DNV added: "These management system certifications help companies like AESI operate responsibly and build trust across their supply chains. AESI's achievement is a clear demonstration of leadership in advancing energy innovation while prioritizing both people and the planet."

AESI designs and manufactures advanced grid-scale battery energy storage systems architected for high reliability, superior performance and the lowest total cost of ownership. AESI's flagship product, TeraStor™, empowers customers to harness the full potential of renewable energy and optimize energy management for maximum profitability and sustainability. This integrated ISO 9001, ISO 14001 and ISO 45001 certification reinforces AESI as a leader in the energy storage sector, enhancing customer satisfaction, reducing environmental impact and promoting a culture of safety across its operations.
