

Diverticulitis Market Predicted to See Upsurge Through 2032, Highlights DelveInsight

DelveInsight's Diverticulitis Market report offers an in-depth understanding of the epidemiology and market trends in the 7MM.

LAS VEGAS, NV, UNITED STATES,
January 17, 2025 /EINPresswire.com/ --

DelveInsight's "Diverticulitis Market Insights, Epidemiology, and Market Forecast-2032" report offers an in-depth understanding of the

Diverticulitis, historical and forecasted

epidemiology as well as the Diverticulitis market trends in the United States, EU4 (Germany, Spain, Italy, France) the United Kingdom and Japan.

To Know in detail about the Diverticulitis market outlook, drug uptake, treatment scenario and epidemiology trends, Click here; [Diverticulitis Market Forecast](#)

Some of the key facts of the Diverticulitis Market Report:

- The Diverticulitis market size is anticipated to grow with a significant CAGR during the study period (2019-2032)
- In October 2024, Accord BioPharma, Inc., the U.S. specialty division of Intas Pharmaceuticals, Ltd., which focuses on developing oncology, immunology, and critical care therapies, announced that the U.S. Food and Drug Administration (FDA) has approved IMULDOSA (ustekinumab-srlf), a biosimilar to STELARA® (ustekinumab), for the treatment of chronic inflammatory conditions, such as psoriasis, diverticulitis, psoriatic arthritis, Crohn's disease, and ulcerative colitis. The FDA granted approval for IMULDOSA for all the indications of its reference drug, STELARA.
- Moreover, pharmaceutical enterprises like Emmaus Medical, Cosmo Pharmaceuticals, and others are actively engaged in the advancement of potential therapies to address the existing gaps in currently utilized treatments, aiming to meet unmet medical needs.
- In individuals aged over 60 in the United States, diverticulosis is present in more than 50%. Diverticulitis is widespread, leading to over 2.7 million outpatient visits and 200,000 inpatient admissions annually, incurring a cost exceeding \$2 billion.

Diverticulitis Market Insights

- Key Diverticulitis Companies: Emmaus Medical, Cosmo Pharmaceuticals, Warner Chilcott, Shire, Dr. Falk Pharma GmbH, Pfizer, SOFAR S.p.A., and others
- Key Diverticulitis Therapies: Endari, Aemcolo, Mesalamine, SPD476, Rifamycin SV-MMX®, tigecycline, mesalamine, and others
- The Diverticulitis epidemiology based on gender analyzed that women are more likely than men to develop diverticulitis. However, among people younger than age 50, men are more likely to develop diverticulitis
- The Diverticulitis market is expected to surge due to the disease's increasing prevalence and awareness during the forecast period. Furthermore, launching various multiple-stage Diverticulitis pipeline products will significantly revolutionize the Diverticulitis market dynamics.

Diverticulitis Overview

Diverticulitis is a medical condition characterized by the inflammation or infection of small pouches (diverticula) that can form along the walls of the digestive tract, typically in the colon (large intestine). These pouches can develop when weak spots in the intestinal walls give way under pressure, causing bulging pockets to form.

Diverticulitis Drugs Uptake and Pipeline Development Activities

The drugs uptake section focuses on the rate of uptake of the potential drugs recently launched in the Diverticulitis market or expected to get launched during the study period. The analysis covers Diverticulitis market uptake by drugs, patient uptake by therapies, and sales of each drug.

Moreover, the therapeutics assessment section helps understand the drugs with the most rapid uptake and the reasons behind the maximal use of the drugs. Additionally, it compares the drugs based on market share.

The report also covers the Diverticulitis Pipeline Development Activities. It provides valuable insights about different therapeutic candidates in various stages and the key companies involved in developing targeted therapeutics. It also analyzes recent developments such as collaborations, acquisitions, mergers, licensing patent details, and other information for emerging therapies.

Diverticulitis Therapies and Key Companies

- Endari: Emmaus Medical
- Aemcolo: Cosmo Pharmaceuticals
- Mesalamine: Warner Chilcott
- SPD476: Shire
- Rifamycin SV-MMX®: Dr. Falk Pharma GmbH
- tigecycline: Pfizer
- mesalamine: SOFAR S.p.A.

Diverticulitis Market Drivers

- The increase in the prevalence of the disease and the demand for medications for faster and better treatment will boost the market
- The change in life style and eating habits, smoking are contributing to the market growth

Diverticulitis Market Barriers

- The current treatment options are very few for treating patients with Diverticulitis infection, which open a platform of new therapies to boost the market of Diverticulitis infection.

Scope of the Diverticulitis Market Report

- Study Period: 2019–2032
- Coverage: 7MM [The United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan]
- Key Diverticulitis Companies: Emmaus Medical, Cosmo Pharmaceuticals, Warner Chilcott, Shire, Dr. Falk Pharma GmbH, Pfizer, SOFAR S.p.A., and others
- Key Diverticulitis Therapies: Endari, Aemcolo, Mesalamine, SPD476, Rifamycin SV-MMX®, tigecycline, mesalamine, and others
- Diverticulitis Therapeutic Assessment: Diverticulitis current marketed and Diverticulitis emerging therapies
- Diverticulitis Market Dynamics: Diverticulitis market drivers and Diverticulitis market barriers
- Competitive Intelligence Analysis: SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies
- Diverticulitis Unmet Needs, KOL's views, Analyst's views, Diverticulitis Market Access and Reimbursement
