

# Light Surge by Chen Yang Wins Iron A' Design Award in Fashion, Apparel and Garment Design

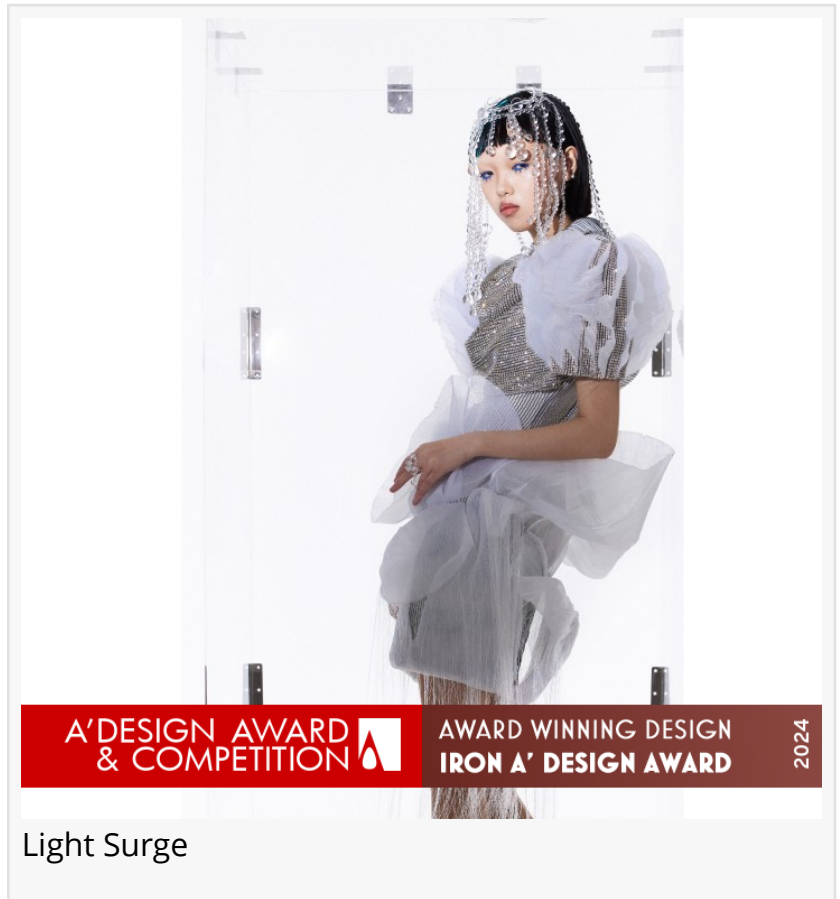

*Innovative Womenswear Collection  
Recognized for Exceptional Design and  
Use of Optical Fiber Technology*

COMO, CO, ITALY, January 17, 2025 /EINPresswire.com/ -- The prestigious A' [Design Award](#), one of the world's most respected and well-recognized awards in the field of [fashion](#) design, has announced [Chen Yang's](#) "Light Surge" as a winner in the Fashion, Apparel and Garment Design category. This highly coveted recognition celebrates the exceptional design and innovative use of materials in Chen Yang's womenswear collection.

Light Surge showcases the transformative potential of integrating advanced materials and technologies into fashion design. By seamlessly

incorporating light-guided optical fibers and artificial glass through meticulous sewing and handmade embroidery techniques, Chen Yang creates a visually stunning collection that pushes the boundaries of traditional womenswear. The innovative use of these materials not only enhances the aesthetic appeal but also offers practical benefits such as enhanced visibility and safety in low-light conditions.

Inspired by the mesmerizing bioluminescence of marine life, such as fluorescent beaches and sea slugs, Light Surge captures the essence of natural wonder and translates it into a wearable art form. The garments feature intricate three-dimensional knots made of optical fiber cloth and delicately hanging optical fibers, creating a dynamic interplay of light and texture. The collection's silhouettes and structures are meticulously designed to evoke a sense of fluidity and grace, reminiscent of the ethereal beauty found in the depths of the ocean.

This prestigious recognition from the A' Design Award serves as a testament to Chen Yang's unwavering commitment to innovation and excellence in fashion design. The Iron A' Design Award not only celebrates the creative vision behind Light Surge but also highlights the immense potential for integrating advanced materials and technologies into wearable fashion. This accolade is expected to inspire future collections from Chen Yang and encourage other designers to explore the boundless possibilities of merging fashion with cutting-edge technologies.

Light Surge was brought to life through the collaborative efforts of a talented team. Chen Yang, the visionary designer behind the collection, worked closely with Tian Shun to ensure the seamless integration of optical fibers and the precise control of light using mobile phone software.

Interested parties may learn more about Light Surge and explore the intricate details of this award-winning collection at:
