

Reena Garg, MD, and Visionary Eye Doctors are among the first practices in the Washington, DC area to offer iDose® TR

iDose TR empowers patients with glaucoma to control high eye pressure long-term, offering a promising outlook for their eye health.

ROCKVILLE, MD, UNITED STATES, January 21, 2025 /EINPresswire.com/ -- Dr. Reena Garg and Visionary Eye Doctors are proud to be among the first practices in the Washington DC Metropolitan area to offer iDose® TR (travoprost intraocular implant) as a treatment option for glaucoma. This innovative therapy delivers long-term, continuous drug release directly inside the eye to control elevated intraocular pressure, reducing reliance on prescription eye drops.

Dr. Garg, the first to implant iDose TR in the region, noted the benefits for patients who struggle with eye drop adherence or experience side effects. With a simple, one-time implantation procedure, iDose TR provides a hands-free alternative to manage open-angle glaucoma or ocular hypertension.
