

Centaur Lab Launches AI Venture Studio to Empower Global Innovation

NEW YORK, NY, UNITED STATES, January 17, 2025 /EINPresswire.com/ -- [Centaur Lab](#), spearheaded by visionary entrepreneur Boon Chew, proudly announces the launch of its groundbreaking AI Venture Studio. Designed to redefine the role of artificial intelligence in daily life, the studio aims to create transformative platforms that empower businesses, educators, creatives, and individuals worldwide.

"AI has the power to elevate human potential and reshape the way we live and work," said Boon Chew, Founder of Centaur Lab and Tappollo Media. "Our goal is to create tools that not only leverage cutting-edge technology but also address meaningful challenges in ways that inspire creativity and foster connections across the globe."

Boon Chew

Centaur Lab's AI Venture Studio is already transforming industries with a diverse portfolio of projects that blend cutting-edge technology with practical applications. These include Curiosity Lab, a quest-based learning platform fostering curiosity and global collaboration among children; Mars and Venus, an AI relationship companion enhancing communication and strengthening personal connections; Hello Hans, a gamified storytelling platform unlocking creativity through interactive narratives; Black Cow, a revolutionary tool simplifying music registration to empower musicians to focus on their art; and To Be Human, a social journaling app designed for self-discovery and mindfulness.

These ventures are poised to impact millions of users by leveraging AI's ability to automate, enhance, and innovate. With a strong commitment to human-centric AI, Centaur Lab is shaping solutions that resonate with people from all walks of life.

The global AI market is projected to grow from \$207.9 billion in 2023 to \$1.39 trillion by 2030,

reflecting a compound annual growth rate (CAGR) of 36.2%, according to [Fortune Business Insights](#). Centaur Lab's initiatives align with this explosive growth, offering unparalleled opportunities for businesses and individuals to thrive in the AI-driven future.

About Boon Chew

Boon Chew's visionary leadership has consistently delivered success. His ventures at Tappollo Media have collectively exceeded \$2 billion in valuation. Notable achievements include the award-winning friendship and dating app for the autism community and Pepper, a social cooking app with over 1.5 million downloads. With deep technical expertise and a passion for meaningful innovation, Boon Chew continues to push the boundaries of what technology can achieve.

Centaur Lab invites innovators, entrepreneurs, and collaborators to join its mission of shaping the future of AI. For more information, visit <https://centaurlab.ai>.
