However, the integration of Artificial Intelligence (AI) and Machine Learning (ML) is significantly advancing the Robotic Process Automation (RPA) landscape. These technological innovations are propelling <u>Intelligence Process Automation (IPA)</u>, allowing businesses to automate repetitive tasks and optimize processes. Through IPA, organizations are enhancing decision-making, boosting efficiency, and reducing operational costs, marking a pivotal shift towards more intelligent and data-driven business operations.

As the rise of robotics process automation New York has become a driving force in this digital transformation, offering businesses a path to greater efficiency and cost reduction.

Ajay Mehta, CEO of IBN Technologies, said, "Bringing AI into RPA really changes the game, making businesses more efficient and helping them make smarter decisions." Impact of Robotics process automation New York has positioned itself at the forefront of this technological evolution, enabling industries to streamline operations, reduce costs, and unlock new

opportunities for growth.

The recent survey also marks U.S. RPA market is expected to see continued robust growth, with robotics process automation New York playing a key role in driving adoption. As organizations increasingly look to harness the power of automation, RPA solutions are expected to further enhance business efficiency, competitiveness, and operational agility.

By taking over the RPA and AI, industries are setting the stage for an era of unparalleled technological advancement, where automation will redefine the future of business processes.

About IBN Technologies

IBN Technologies LLC, an outsourcing specialist with 25 years of experience, serves clients across the United States, United Kingdom, Middle East, and India. Renowned for its expertise in RPA, Intelligent process automation includes AP Automation services like P2P, Q2C, and Record-to-Report. IBN Technologies provides solutions compliant with ISO 9001:2015, 27001:2022, CMMI-5, and GDPR standards. The company has established itself as a leading provider of IT, KPO, and BPO outsourcing services in finance and accounting, including CPAs, hedge funds, alternative investments, banking, travel, human resources, and retail industries. It offers customized solutions that drive efficiency and growth.
