

# Bacterial Vaginosis Market Statistics Expected to Experience Major Growth by 2034, According to DelveInsight

*DelveInsight's Bacterial Vaginosis Market report offers an in-depth understanding of the epidemiology and market trends in the 7MM.*

LAS VEGAS, NV, UNITED STATES, January 20, 2025 /EINPresswire.com/ -- DelveInsight's "Bacterial Vaginosis Market Insights, Epidemiology, and Market Forecast-2034" report offers an in-depth understanding of the Bacterial Vaginosis, historical and forecasted epidemiology as well as the Bacterial Vaginosis market trends in the United States, EU4 (Germany, Spain, Italy, France) the United Kingdom and Japan.

Bacterial Vaginosis Market Forecast

The latest healthcare forecast report provides an in-depth analysis of Bacterial Vaginosis, offering comprehensive insights into the Bacterial Vaginosis revenue trends, prevalence, and treatment landscape. The report delves into key Bacterial Vaginosis statistics, highlighting the current and projected market size, while examining the efficacy and development of emerging Bacterial Vaginosis therapies. Additionally, we cover the landscape of Bacterial Vaginosis clinical trials, providing an overview of ongoing and upcoming studies that are poised to shape the future of Bacterial Vaginosis treatment. This report is an essential resource for understanding the market dynamics and the evolving therapeutic options within the Bacterial Vaginosis space.

Some of the key facts of the Bacterial Vaginosis Market Report:

- The Bacterial Vaginosis market size is anticipated to grow with a significant CAGR during the study period (2020-2034)
- Key Bacterial Vaginosis Companies: Organon/Daré Bioscience, Lupin, Osel, and others
- Key Bacterial Vaginosis Therapies: XACIATO, SOLOSEC, LACTIN-V, and others

- The Bacterial Vaginosis market is expected to surge due to the disease's increasing prevalence and awareness during the forecast period. Furthermore, launching various multiple-stage Bacterial Vaginosis pipeline products will significantly revolutionize the Bacterial Vaginosis market dynamics.
- The analysis of bacterial vaginosis revealed that it is the most prevalent vaginal infection among women of reproductive age, affecting an estimated 5–70% of women
- The analysis found that the prevalence of bacterial vaginosis in the US is approximately 30%
- The analysis revealed that bacterial vaginosis occurs in women aged 14–49, with varying rates across different ethnic groups, being most common in non-white women.
- The analysis found that bacterial vaginosis is prevalent even among women who have not participated in vaginal, oral, or anal sex, affecting 18.8% of this group.

### Bacterial Vaginosis Overview

Bacterial Vaginosis (BV) is a common vaginal infection caused by an imbalance in the natural bacteria found in the vagina. Normally, "good" bacteria like Lactobacillus dominate, but in BV, there is an overgrowth of "bad" bacteria. Symptoms may include abnormal vaginal discharge, a fishy odor, itching, or burning. While BV is not a sexually transmitted infection, it can be influenced by sexual activity, douching, or an imbalance in the vaginal environment. Treatment typically involves antibiotics to restore bacterial balance.

### Bacterial Vaginosis Epidemiology

The epidemiology section provides insights into the historical, current, and forecasted epidemiology trends in the seven major countries (7MM) from 2020 to 2034. It helps to recognize the causes of current and forecasted trends by exploring numerous studies and views of key opinion leaders. The epidemiology section also provides a detailed analysis of the diagnosed patient pool and future trends.

### Bacterial Vaginosis Epidemiology Segmentation:

The Bacterial Vaginosis market report proffers epidemiological analysis for the study period 2020–2034 in the 7MM segmented into:

- Total Prevalence of Bacterial Vaginosis
- Prevalent Cases of Bacterial Vaginosis by severity
- Gender-specific Prevalence of Bacterial Vaginosis
- Diagnosed Cases of Episodic and Chronic Bacterial Vaginosis

### Bacterial Vaginosis Drugs Uptake and Pipeline Development Activities

The drugs uptake section focuses on the rate of uptake of the potential drugs recently launched in the Bacterial Vaginosis market or expected to get launched during the study period. The analysis covers Bacterial Vaginosis market uptake by drugs, patient uptake by therapies, and sales of each drug.

Moreover, the therapeutics assessment section helps understand the drugs with the most rapid uptake and the reasons behind the maximal use of the drugs. Additionally, it compares the drugs based on market share.

The report also covers the Bacterial Vaginosis Pipeline Development Activities. It provides valuable insights about different therapeutic candidates in various stages and the key companies involved in developing targeted therapeutics. It also analyzes recent developments such as collaborations, acquisitions, mergers, licensing patent details, and other information for emerging therapies.

### Bacterial Vaginosis Therapies and Key Companies

- XACIATO: Organon/Daré Bioscience
- SOLOSEC: Lupin
- LACTIN-V: Osel

### Bacterial Vaginosis Market Drivers

- Increasing Incidence
- Awareness and Diagnosis
- Therapeutic Advancements
- Antibiotic Prescriptions

### Bacterial Vaginosis Market Barriers

- Lack of Awareness
- Treatment Challenges
- Cultural Stigma
- Side Effects of Treatment

### Scope of the Bacterial Vaginosis Market Report

- Study Period: 2020–2034
- Coverage: 7MM [The United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan]
- Key Bacterial Vaginosis Companies: Organon/Daré Bioscience, Lupin, Osel, and others
- Key Bacterial Vaginosis Therapies: XACIATO, SOLOSEC, LACTIN-V, and others
- Bacterial Vaginosis Therapeutic Assessment: Bacterial Vaginosis current marketed and Bacterial Vaginosis emerging therapies
- Bacterial Vaginosis Market Dynamics: Bacterial Vaginosis market drivers and Bacterial Vaginosis market barriers
- Competitive Intelligence Analysis: SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies
- Bacterial Vaginosis Unmet Needs, KOL's views, Analyst's views, Bacterial Vaginosis Market
