

Global Orthopedic Trauma Devices Market is expected to Grow at a CAGR of 6.43% by 2030, Analyzes DelveInsight

Orthopedic Trauma Devices companies are Zimmer Biomet, Orthofix Medical, DePuy Synthes (Johnson & Johnson), B. Braun Melsungen, Stryker, Medtronic, Acumed, etc

ALBANY, NY, UNITED STATES, January 20, 2025 /EINPresswire.com/ --

According to the latest report published by DelveInsight, "Orthopedic Trauma Devices Market Insight Report," the global Orthopedic Trauma Devices market is expected to witness

significant growth owing to an increase

in the prevalence of simple fractures and severe life-threatening injuries. Furthermore, the rising number of accidents or other fatal incidences, along with the rising number of trauma associated with road accidents, fall injuries, and the increasing prevalence pertaining to osteoarthritis and orthopedic sports injury, is also a major factor contributing to the growth of Orthopedic Trauma Devices market. This report will provide an in-depth understanding of the Orthopedic Trauma Devices market, further benefiting the competitors or stakeholders operating in the Orthopedic Trauma Devices market.

The Orthopedic Trauma Devices market is expected to boost owing to the rising incidence of trauma and accident cases, the increasing prevalence of degenerative bone disorders, the increasing number of sports-related injuries, rising technological advancements pertaining to orthopedic trauma devices, and the rising number of new product launches, among others.

Key Takeaways from the Orthopedic Trauma Devices Market Report

- According to DelveInsight analysis, North America is anticipated to dominate the global Orthopedic Trauma Devices market during the forecast period.
- The orthopedic trauma devices market was valued at USD 7.01 billion in 2023, growing at a CAGR of 6.43% during the forecast period from 2024 to 2030 to reach 10.15 billion by 2030.
- The leading Orthopedic Trauma Devices companies such as Zimmer Biomet, Orthofix Medical

Inc, DePuy Synthes (Johnson & Johnson), B. Braun Melsungen AG., Stryker, Medtronic, Acumed, INION OY, Orthomed., Smith+Nephew, CONMED Corporation, Bioretex Ltd, Arthrex Inc, JEIL MEDICAL CORPORATION, OsteoMed, Medartis AG, Biorez, Invibio Ltd, Advanced Orthopaedic Solutions, DJO, LLC, and others are currently working in the Orthopedic Trauma Devices market.

- On October 02, 2024, Globus Medical, Inc., a leading musculoskeletal solutions company, announced the continued growth and expansion of its orthopedic trauma product portfolio. Globus introduced several new system extensions in 2024 and received 510(k) clearance from the U.S. Food and Drug Administration for its first suture-based product, the TENSOR™ Suture Button System. Among the newly launched next-generation systems were the ANTHEM™ II Distal Radius Volar Plates, AUTOBAHN™ Trochanteric Nail PRO Instruments, and CAPTIVATE™ SOLA Headless Screws.
- In October 2021, CurvaFix Inc launched the CurvaFix implant in the United States. The implant is said to have applicability in the fixation of pelvic and acetabular fractures.
- In June 2021, Zimmer Biomet launched Bactiguard-coated orthopedic trauma implants for infection prevention in select Europe and Middle East, and Africa markets. In January 2021, these implants received the CE mark.
- In May 2021, Safe Orthopedics received the CE mark approval for their new Hickory screw, which is part of their SteruiSpine PS next-generation product portfolio.
- Thus, owing to the launch of such devices, there will be a rapid growth observed in the Orthopedic Trauma Devices market during the forecast period.

Orthopedic Trauma Devices

Orthopedic trauma is a condition that includes injuries majorly affecting the human skeletal systems, thereby limiting the smooth mobility of the person affected and reducing the quality of life. The orthopedic trauma conditions include conditions that range from simple fractures to severe life-threatening injuries caused, owing to accidents or other fatal incidences. The various equipment and devices that play a wide role in reconstructive surgeries comprise screws, plate systems, nail systems, and special implants (such as internal fixator devices and external fixator devices). The orthopedic trauma devices are commonly made of titanium and stainless steel.

Orthopedic Trauma Devices Market Insights

Geographically, the global Orthopedic Trauma Devices market is studied for North America, Europe, Asia-Pacific, and Rest of the World. In terms of revenue share, North America currently leads the global Orthopedic Trauma Devices market, and is expected that it will remain constant during the forecast period. This domination is owing to the recent product approvals pertaining to orthopedic trauma devices and the rising incidence of orthopedic disorders in the region, among other factors in the region. Furthermore, the rising research and development with respect to Orthopedic Trauma Devices, along with the rising adoption of the devices across the North American region, will also contribute to the growth of the regional Orthopedic Trauma Devices market growth.

Further, In the United States, the rising sports injury is also expected to propel the Orthopedic Trauma Devices market. Further, due to the increase in the presence of key players in the Asia-Pacific region, there is an increasing demand observed for Orthopedic Trauma Devices in these regions will drive the Orthopedic Trauma Devices market growth.

Scope of the Orthopedic Trauma Devices Market Report

- Coverage: Global
- Study Period: 2021-2030
- Market Segmentation By Product Type - Internal Fixators (Plates & Screws, Rods & Pins, and Others) and External Fixators (Unilateral, Circular, Hybrid, and Others)
- Market Segmentation By Absorbability - Non-Absorbable and Resorbable
- Market Segmentation By End-User - Hospitals, Ambulatory Surgical Centers, and Others
- Market Segmentation By Geography - North America, Europe, Asia-Pacific, and Rest of World
- Key Orthopedic Trauma Devices Companies - Zimmer Biomet, Orthofix Medical Inc, DePuy Synthes (Johnson & Johnson), B. Braun Melsungen AG., Stryker, Medtronic, Acumed, INION OY, Orthomed., Smith+Nephew, CONMED Corporation, Bioretec Ltd, Arthrex Inc, JEIL MEDICAL CORPORATION, OsteoMed, Medartis AG, Biorez, Invibio Ltd, Advanced Orthopaedic Solutions, DJO, LLC, among others
- Porter's Five Forces Analysis, Product Profiles, Case Studies, KOL's Views, Analyst's View

DelveInsight Analysis: The Orthopedic Trauma Devices market size is expected to grow at a CAGR of 6.43% during the forecast period (201-26) to reach USD 10.08 billion by 2030.
