

# Asset-backed Securities Market Size is Projected to Attain \$10,000.0 Billion By 2032

*Asset-backed Securities Market Research Report By, Asset Class, Security Structure, Credit Rating, Maturity, Regional*

VA, UNITED STATES, January 23, 2025 /EINPresswire.com/ -- The global Asset-Backed Securities (ABS) Market is witnessing steady growth and is poised to expand significantly over the next decade. In 2022, the market size was valued at USD 5,867.87 billion and is projected to grow from USD 6,189.43

billion in 2023 to USD 10,000 billion by 2032, reflecting a compound annual growth rate (CAGR) of 5.48% during the forecast period (2024–2032). This growth is driven by increasing demand for structured financial products, evolving regulatory frameworks, and a growing emphasis on capital market innovation.

## Key Drivers Of Market Growth

### □ Rising Demand for Structured Financial Products

Investors are increasingly seeking diversified portfolios with reduced risk. Asset-backed securities, offering a blend of liquidity and stability, cater to this demand.

### □ Growth in Consumer Credit

The expansion of consumer credit markets, including auto loans, credit card receivables, and student loans, is driving the origination of new asset-backed securities.

### □ Evolving Regulatory Frameworks

Governments and financial authorities are implementing policies to enhance transparency and investor confidence in securitized assets, fostering market growth.

### □ Technological Advancements in Financial Markets

The integration of blockchain and advanced analytics in the securitization process has improved efficiency and reduced operational costs, further propelling the market.
