

# Better Days Treatment Center Offers One of the Top Outpatient Programs in Anaheim

---

Anaheim, California – Better Days Treatment Center, one of California’s most renowned detox and rehab facilities, is happy to announce it is now offering one of the top outpatient rehab programs in Anaheim that leverages its experienced team of addiction specialists’ expertise to help patients achieve their recovery goals.

Outpatient programs are ideal for patients who are looking for more freedom in their treatment plans. Like inpatient programs, the leading outpatient programs now offered at Better Days Treatment Center provide patients with access to a wide variety of treatments, such as therapy and group activities. The difference is that they will also be able to go home at night and sleep in their bed, which offers an added sense of freedom and responsibility.

Typically less intensive than inpatient care, outpatient programs provide individuals with the chance to work with and learn from a wide variety of addiction specialists. Most importantly, at Better Days Treatment Center, they will get to participate in therapy sessions during their outpatient treatment plan.

Therapy gives patients the chance to explore the root causes of their addiction. It will help them to explore why they have abused drugs or alcohol in the past and learn strategies that can be used to deal with the underlying causes of addiction in healthier ways.

At the luxurious Better Days Treatment Center, patients can also participate in group activities during their outpatient treatment in Anaheim, CA. These activities provide the chance to bond with other patients who are going through a similar process and to learn from their experiences.

“The nature of your home environment can play a large role in determining whether outpatient care is right for you. For example, if you live with family members who are supportive and sober, then coming home at night could give you the strength to complete your rehab plan successfully. But if you live in a home with other substance abusers or with people who contribute to your addiction, then inpatient care could be a better option,” furthered the spokesperson for Better Days Treatment Center.

Better Days Treatment Center invites prospective patients with any questions to contact its highly trained team to learn more about its range of outpatient programs in Anaheim today.

About Better Days Treatment Center
