

pdfFiller by airSlate Introduces the Revamped Rearrange Tool to Streamline Document Workflows from Dashboard and Editor

Effortlessly Organize PDF Pages with pdfFiller's Enhanced Rearrange Feature

BOSTON, MA, UNITED STATES, January 22, 2025 /EINPresswire.com/ --

pdfFiller, a leading online platform for comprehensive document management, has announced an upgraded version of its user-loved "Rearrange PDF Pages" feature. This renewed tool is now accessible directly

from both the user Dashboard and the PDF editor, offering a more intuitive, efficient way to modify PDF page order while significantly reducing document management time.

The new enhancements empower users—whether individuals or businesses—to seamlessly organize their documents from any device, saving time and ensuring greater control over workflows. By renewing this capability, pdfFiller takes another step toward simplifying PDF customization and enhancing the user experience for its growing global audience.

The revamped "Rearrange PDF Pages" tool offers advanced user-focused capabilities to make document organization as straightforward as possible. These include:

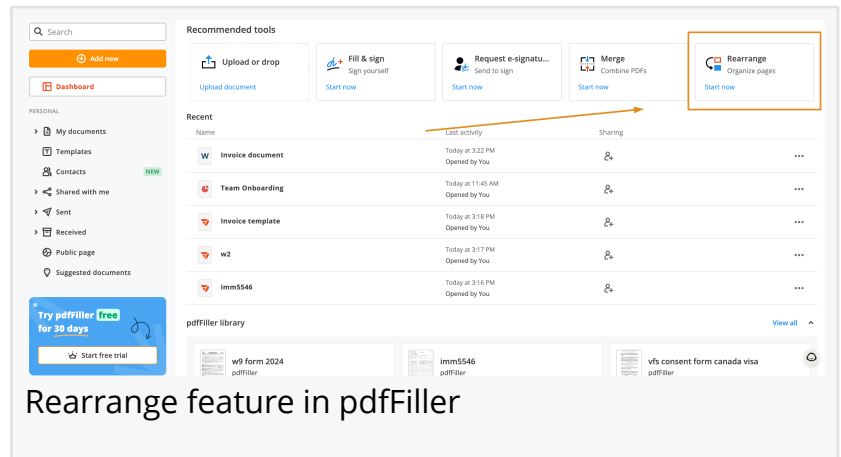

Drag-and-drop simplicity – Reorder pages effortlessly with an intuitive interface.

Add or remove pages – Insert new content or eliminate unnecessary pages to refine your document.

Rotate for clarity – Fix page orientations instantly, ensuring professional results.

Cloud-based convenience – Access and update your documents anytime, anywhere.

The upgraded tool is designed to cater to various needs, from business professionals to students. For business operations, it helps optimize presentations and reports by arranging content in a logical flow. In publishing projects, it streamlines the structuring of eBooks, manuals, and guides, ensuring a smooth reader experience. Regarding legal document preparation, the tool simplifies organizing scanned agreements and contracts. For academic submissions, it provides clarity and accuracy in project formatting, making it a valuable asset for students.

HOW TO USE the updated tool:

Users can easily rearrange PDF pages by following these steps:

- 1) Log in to a pdfFiller account.
- 2) Access the Rearrange tool from the Dashboard.
- 3) Click Start now and upload your document.
- 4) Duplicate, add, remove, and rotate pages.
- 5) Save and share the updated PDF via email, unique link, or direct download.

About pdfFiller

pdfFiller is a comprehensive cloud-based document management solution used by millions worldwide. Its tools allow users to edit, sign, create, and organize PDFs with ease. Features include custom editing capabilities, secure eSignature collection, form transformation, and unlimited cloud storage. pdfFiller is part of the airSlate business automation platform, which continues to innovate document workflows for individuals and organizations.
