

Smoothstack launches Fedstack, a new business unit to serve pressing technology needs of federal government entities

Experienced workforce development company expands to technology consulting and partner training solutions.

MCLEAN, VA, UNITED STATES, January 22, 2025 /EINPresswire.com/ -- [Smoothstack](#), a leader in IT solutions and workforce development, is announcing the launch of [Fedstack](#), a new business unit fully focused on the specific technology consulting needs of the public sector. With this launch, government institutions and federal agencies have a partner to meet today's fast-changing technology and workforce development challenges.

Fedstack is a technology services and solutions provider headed by a leadership team with more than a century of collective expertise in federal consulting. The team has successfully driven major transformational programs across 25 federal government departments and agencies.

With this launch, Fedstack seeks to establish itself as a leader in technology consulting, working with federal agencies and federal system integrator partners to address the most pressing challenges in five key areas: data and artificial intelligence, application development, digital platforms, infrastructure, and cybersecurity. This consulting expertise is the cornerstone of Fedstack's mission to modernize federal operations and deliver impactful, future-ready solutions.

To enable this mission, Fedstack is adding Partner Training Solutions, which provides customized training programs for upskilling existing experienced talent with the latest skills and knowledge for today's quickly changing technology world, including certification programs for top vendors. These training programs include Cloud, Agile and DevOps, Systems Engineering, Digital

Platforms/ERP, Low-Code and No-Code Technologies, Data and AI, Network and Infrastructure, and Cybersecurity.

Fedstack, has extensive experience in building and scaling workforces for clients through its Talent Scaling Solution, which leverages Smoothstack's time-proven hire-train-deploy (HTD) approach to quickly scale up workforces in a cost-effective manner (with well over 700 deployments across 10 Federal Agencies and 100 digital transformation projects). For job candidates, we offer the opportunity to launch a new career path in the technology industry for individuals across a range of skill levels.

"Fedstack provides technology consulting as well as workforce solutions, making us an ideal partner for major consulting firms working with large government agencies, especially for skills-based workforce development," said Chris Coligado, Executive Vice President at Fedstack. "Our unique offering at the intersection of technology consulting, workforce scaling and partner training services is well positioned to answer the current needs of federal agencies."
