Moving forward, the [Basaglar market size](#) is expected to see XX FCAGR in the next few years. It will grow to \$XX

million in 2029 at a compound annual growth rate CAGR of XX%.

So, what's causing the increased demand for Basaglar? Diabetes! Yes, the rising prevalence of diabetes is expected to propel growth of the Basaglar market. Diabetes, a chronic medical condition where the body either cannot produce enough insulin or cannot effectively use the insulin it produces, leads to high blood sugar levels. This rising prevalence can be attributed to increased demand for insulin glargine, driving market growth as more patients require insulin for blood sugar control. Basaglar is used to manage blood sugar levels in diabetes by providing a
