"Indebted" is not just a song but a poignant reflection on the cyclical nature of desire and suffering. [Hallie](#) draws inspiration from Buddhist philosophy, particularly the idea that desire can create both the universe and profound suffering. In her lyrics, she articulates her own personal journey, emphasizing the internal battle that often manifests as a directionless, painful longing. Hallie states, "There is a tendency for artists and creatives of all kinds to self-sabotage. When I am low, it is my own thoughts, my own mind that creates the hell I am using a fix to try and escape from.... the moment I acknowledge that I am creating my own suffering is the moment I have the power to change it."

The rock-ballad captures the emotional whiplash associated with the compulsive drive toward fleeting pleasures in an attempt to fill a void. Hallie aims to convey the message that while temporary escapes may provide momentary relief, they ultimately come at a significant cost. The lyricism in "Indebted" speaks to the price one pays for such fleeting moments of happiness, highlighting the inevitable come down that follows.

There is a tendency for artists and creatives of all kinds to self-sabotage.”
