

iDocsWeb Achieves SOC2 Certification

iDocsWeb Corp Achieves SOC 2 Certification, Reinforcing Commitment to Data Security and Privacy

PLANO, TX, UNITED STATES, January 23, 2025 /EINPresswire.com/ -- iDocsWeb Corp, a pioneer in [telemedicine](#) solutions serving a rapidly growing network of long-term care facilities and regional hospitals throughout multiple states, proudly announces its achievement of SOC 2 certification. This milestone validates the company's comprehensive approach to protecting sensitive healthcare data while delivering exceptional telehealth services.

iDocsWeb Telemedicine has been in business since 2013.

“

In today's challenging healthcare landscape, secure telemedicine solutions have become essential for maintaining quality care in long-term care settings.”

Dr. Bharath Rayasam, CTO

SOC 2 (Service Organization Control 2) certification, developed by the American Institute of CPAs (AICPA), is a rigorous standard that evaluates an organization's controls related to security, availability, processing integrity, confidentiality, and privacy. By achieving SOC 2 certification, iDocsWeb has proven its commitment to maintaining a secure, reliable, and trustworthy environment for its telemedicine platform and services.

"In today's challenging healthcare landscape, secure telemedicine solutions have become essential for maintaining quality care in long-term care settings," said Dr. Bharath Rayasam, CTO, and cofounder of iDocsWeb Corp. "As a trusted partner for long-term care facilities and regional hospitals, we understand the critical importance of protecting sensitive patient data while providing seamless and efficient telemedicine solutions. Our SOC 2 certification, combined with HIPAA compliance and 256-bit encryption for data transmission and storage, demonstrates our unwavering commitment to security excellence."

The platform's secure infrastructure enables:

Rapid provider response times for urgent medical needs

Seamless integration with major EHR systems
Round-the-clock availability with enterprise-grade reliability
Comprehensive multi-specialty provider coverage
Healthcare facilities utilizing iDocsWeb's platform report significant improvements in key performance indicators, including reduced hospital readmissions, decreased emergency department visits, enhanced staff satisfaction, and improved family engagement through secure virtual visits.

The certification process, conducted by an independent auditing firm, thoroughly reviewed iDocsWeb's systems, policies, and procedures. The successful completion of the audit reflects iDocsWeb's robust infrastructure and operational practices, ensuring compliance with stringent industry standards.
