Some of the key facts of the Market Report:

- The Surgical Site Infections market size is anticipated to grow with a significant CAGR during the study period (2020-2034)
- Findings indicate that surgical site infections occur in 2% to 4% of patients undergoing inpatient surgical procedures.
- According to the Centers for Disease Control and Prevention, surgical site infections (SSIs) are one of the most common healthcare-associated infections (HAIs), accounting for 22% of all infections. Approximately 2% to 5% of patients undergoing inpatient surgery develop an SSI.
- A positive shift in treatment options for surgical site infections (SSIs) is anticipated, fueled by the introduction of new therapies and the availability of oxygen therapy, such as Ogenix's EPIFLO.
- Key Surgical Site Infections Companies: MinaPharm Pharmaceuticals, Duke Clinical Research Institute, Zurex Pharma, Inc., Merck Sharp & Dohme LLC, Destiny Pharma Plc, PolyPid Ltd., GlaxoSmithKline, Durata Therapeutics, Cubist Pharmaceutical, Zurex Pharma, Inc., and others

Surgical Site Infections Market Forecast

- Key Surgical Site Infections Therapies: Ciprofloxacin, DFA-02 Antibiotic Gel, ZuraPrep, Ertapenem, XF-73, D-PLEX, cefuroxime, Dalbavancin, daptomycin, ZuraGard, and others
- The Surgical Site Infections market is expected to surge due to the disease's increasing prevalence and awareness during the forecast period. Furthermore, launching various multiple-stage Surgical Site Infections pipeline products will significantly revolutionize the Surgical Site Infections market dynamics.

Surgical Site Infections Overview

A surgical site infection (SSI) is an infection that emerges following a surgical procedure in the specific area of the body where the surgery was performed. These infections might manifest as superficial ones, affecting solely the skin. However, some SSIs are more severe, potentially involving tissues below the skin's surface, organs, or implanted materials.

Surgical Site Infections Drugs Uptake and Pipeline Development Activities

The drugs uptake section focuses on the rate of uptake of the potential drugs recently launched in the Surgical Site Infections market or expected to get launched during the study period. The analysis covers Surgical Site Infections market uptake by drugs, patient uptake by therapies, and sales of each drug.

Moreover, the therapeutics assessment section helps understand the drugs with the most rapid uptake and the reasons behind the maximal use of the drugs. Additionally, it compares the drugs

based on market share.

The report also covers the Surgical Site Infections Pipeline Development Activities. It provides valuable insights about different therapeutic candidates in various stages and the key companies involved in developing targeted therapeutics. It also analyzes recent developments such as collaborations, acquisitions, mergers, licensing patent details, and other information for emerging therapies.

Surgical Site Infections Therapies and Key Companies

- Ciprofloxacin: MinaPharm Pharmaceuticals
- DFA-02 Antibiotic Gel: Duke Clinical Research Institute
- ZuraPrep: Zurex Pharma, Inc.
- Ertapenem: Merck Sharp & Dohme LLC
- XF-73: Destiny Pharma Plc
- D-PLEX: PolyPid Ltd.
- cefuroxime: GlaxoSmithKline
- Dalbavancin: Durata Therapeutics
- daptomycin: Cubist Pharmaceutical
- ZuraGard: Zurex Pharma, Inc.

Scope of the Surgical Site Infections Market Report

- Study Period: 2020–2034
- Coverage: 7MM [The United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan]
- Key Surgical Site Infections Companies: MinaPharm Pharmaceuticals, Duke Clinical Research Institute, Zurex Pharma, Inc., Merck Sharp & Dohme LLC, Destiny Pharma Plc, PolyPid Ltd., GlaxoSmithKline, Durata Therapeutics, Cubist Pharmaceutical, Zurex Pharma, Inc., and others
- Key Surgical Site Infections Therapies: Ciprofloxacin, DFA-02 Antibiotic Gel, ZuraPrep, Ertapenem, XF-73, D-PLEX, cefuroxime, Dalbavancin, daptomycin, ZuraGard, and others
- Surgical Site Infections Therapeutic Assessment: Surgical Site Infections current marketed and Surgical Site Infections emerging therapies
- Surgical Site Infections Market Dynamics: Surgical Site Infections market drivers and Surgical Site Infections market barriers
- Competitive Intelligence Analysis: SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies
- Surgical Site Infections Unmet Needs, KOL's views, Analyst's views, Surgical Site Infections Market Access and Reimbursement
