

Cardiovascular Associates of America Selects Clinii as Preferred Virtual Care Management Platform

ORLANDO, FL, UNITED STATES, January 28, 2025 /EINPresswire.com/ -- Cardiovascular Associates of America (CVAUSA) is pleased to announce its selection of Clinii as the preferred platform for [virtual care management](#) across its practices. This strategic partnership taps into Clinii's AI-driven capabilities to elevate the quality of care for tens of thousands of patients, aligning with

We are excited to partner with Clinii as our preferred platform for virtual care management and remote patient monitoring for our practices,"

Tim Attebery, CEO, CVAUSA

CVAUSA's shift towards value-based healthcare and providing patients with the best cardiovascular care treatment options.

Clinii's advanced AI tools are set to streamline complex care management processes, enhancing CVAUSA's mission to deliver top-tier cardiovascular care. With an expanding focus on virtual care services, Clinii's platform will play a crucial role in optimizing patient outcomes and improving operational efficiencies. Clinii's superior platform allows

practices to better manage heart failure, hypertension and other chronic illnesses by reaching a greater number of patients more efficiently.

"We are honored to be chosen by CVAUSA, the [largest private practice cardiology group](#) in the US serving over 1 million patients nationwide, as their technology partner," said Peri Avitan, CEO, Clinii. "This collaboration highlights our commitment to leveraging cutting-edge technology to enhance healthcare outcomes. Together, we are setting new standards in the healthcare industry and advancing cardiovascular care management."

"We are excited to partner with Clinii as our preferred platform for virtual care management and remote patient monitoring for our practices," said Tim Attebery, CEO, CVAUSA. "Clinii's team has worked closely with our practice teams to customize efficient solutions, integrations, and workflows. This partnership furthers our goal of increasing [access for patients](#) to high quality care while creating an optimal provider experience."
