

Impetus Technologies and NWorld Partner to Accelerate SAS and Legacy Modernization in the UK and Ireland

Collaborating to drive faster, smarter modernization of legacy systems, NWorld and Impetus bring cutting-edge data transformation to the forefront

LOS GATOS, CA, UNITED STATES, January 23, 2025 /EINPresswire.com/ -- Impetus Technologies

Impetus is excited to partner with NWorld to support customers across EMEA in modernizing SAS and legacy analytics workloads to the Databricks Data Intelligence Platform™

Barry Lloyd, Vice President of Sales for EMEA at Impetus

Inc., a digital engineering company that empowers the Intelligent Enterprise with innovative data engineering, cloud, and enterprise AI services and solutions has announced a strategic partnership with [NWorld](#) to drive accelerated transformation from SAS and other legacy systems to modern data platforms such as AWS, Databricks, Microsoft, Google Cloud, and Snowflake.

This collaboration will enable Impetus, an awardee of 2024 Databricks Global Migration Partner of the Year, and an AWS Premier Partner and NWorld, a leading European consulting firm, to modernize legacy systems such as

Hadoop, Oracle, SAS, and Teradata. Together, they will facilitate a seamless transition to modern data cloud platforms with speed, accuracy, and 100% preservation of business logic.

[LeapLogic™](#) product offering, Impetus' automated cloud migration accelerator, simplifies and automates end-to-end transformation of legacy data warehouse, ETL, Hadoop, mainframe, analytics, and BI workloads to modern data cloud platforms. LeapLogic has enabled the migration of over a billion lines of code for hundreds of Fortune 500 companies, including American Express, NCR, JPMorgan Chase, and Citibank to transform their legacy data warehouse and analytical applications to highly performant cloud-native solutions.

Impetus' world-class data, cloud and enterprise AI engineering services portfolio features a broad range of solutions including Impetus [GenAI Innovation Labs](#). Impetus has helped build highly scalable and performant cloud architectures for the largest of banks, healthcare, telecom and manufacturing companies in the world. NWorld provides independent advisory services that offer reassurance and confidence for organizations selecting their optimal future roadmap.

“At NWorld, we are always keen to work with partners that provide value and innovation. Through our partnership with Impetus Technologies, we aim to accelerate the modernization of SAS and legacy workloads onto the Databricks platform more quickly using LeapLogic. Working together, we can fully engage the business, data, and technology teams to ensure our clients’ success,” said Bruce Murray, UK Managing Director at NWorld.

“Impetus is excited to partner with NWorld to support customers across EMEA in modernizing SAS and legacy analytics workloads to the Databricks Data Intelligence Platform,” said Barry Lloyd, Vice President of Sales for EMEA at Impetus. “We expect to fully leverage NWorld’s expertise on SAS and combine with our LeapLogic expertise to help enterprises overcome complex transformation challenges and achieve superior business outcomes.”

This partnership signifies a transformative step for businesses seeking to modernize their data platforms. By leveraging the combined strengths of Impetus and NWorld, organizations can unlock new opportunities for growth and innovation, ensuring a competitive edge in an increasingly data-driven world.

About Impetus Technologies
