“

This achievement reflects the expertise and dedication of our team, as well as our proven track record of supporting the Department of Defense with precision and excellence.”

*Brian Kafenbaum, managing partner of Phoenix Cyber*

SeaPort is the Navy's premier vehicle for the procurement of cybersecurity and IT engineering services. SeaPort NxG is a multiple-award, indefinite-delivery/indefinite-quantity contract that provides direct access to professional IT support services. The program can be leveraged by Naval Sea Systems Command, Naval Air Systems Command, Space and Naval Warfare Command, Naval Supply Systems Command, Military Sealift Command, Strategic Systems Programs, Naval Facilities Engineering Command, Office of Naval Research, and the United States Marine Corps. As

part of this contract, Phoenix Cyber will contribute its expertise in cybersecurity, DevSecOps, and software and cyber engineering to support the Navy's complex technology and engineering requirements across its various commands and programs.

"Our selection for the SeaPort NxG contract is a proud moment for Phoenix Cyber," said Brian Kafenbaum, managing partner of Phoenix Cyber. "This achievement reflects the expertise and dedication of our team, as well as our proven track record of supporting the Department of Defense with precision and excellence. We look forward to advancing the critical missions of the U.S. Navy and Marine Corps through innovative solutions and an unwavering commitment to excellence."

The selection as a SeaPort NxG prime contractor further solidifies Phoenix Cyber as a trusted partner to the federal government and defense sectors.
