

Process Solutions International Celebrates Over 30 Years of Leadership in Fluid Handling Solutions

Celebrating 30+ years, Process Solutions International delivers reliable fluid handling solutions, enhancing efficiency and sustainability across industries.

HOUSTON, TX, UNITED STATES, January 23, 2025 /EINPresswire.com/ -- Process Solutions International (PSI), a trusted name in the fluid handling industry, proudly celebrates over three decades of providing innovative solutions for

industries worldwide. Since its founding in 1991, the company has built a reputation for delivering high-quality products, technical expertise, and exceptional service to meet the diverse needs of its clients.

“

Reaching this milestone reflects our dedication to quality, innovation, and meeting the unique needs of industries worldwide.”

Kye Keliehor

[Specializing in fluid handling equipment](#), PSI offers a comprehensive range of solutions, including industrial pumps, material handling equipment, gas management systems, and cleaning filtration systems. Over the years, the company has served industries such as environmental remediation, oilfield drilling, manufacturing, and water treatment, with a commitment to quality and reliability that remains at the heart of its operations.

“Reaching this milestone is a testament to the hard work, dedication, and innovation of our team,” said a PSI spokesperson. “We are grateful for the trust our customers have placed in us over the years and remain committed to delivering solutions that enhance efficiency, productivity, and sustainability across industries.”

[PSI's success is built on a foundation of technical expertise](#) and a focus on customer needs. The company's products are designed to address the unique challenges of each project, ensuring tailored solutions that maximize performance. From pioneering modular designs that simplify

maintenance to offering energy-efficient equipment, PSI has consistently delivered innovations that make a difference.

In addition to its technical achievements, PSI is dedicated to building lasting relationships with its customers. The company's team of skilled engineers and professionals works closely with clients to understand their specific requirements and provide personalized support. This hands-on approach has positioned PSI as a trusted partner for businesses across five continents.

Looking to the future, [PSI is excited to continue driving progress in fluid handling solutions](#). With a focus on leveraging the latest technologies and maintaining its commitment to excellence, the company aims to expand its global reach and deliver even greater value to its customers.

For over 30 years, Process Solutions International has demonstrated that innovation, quality, and customer satisfaction are the keys to success. As the company celebrates this remarkable milestone, it reaffirms its mission to empower industries with reliable and efficient solutions for years to come.

Centrifugal Pumps

PSI Centrifugal Pumps

PSI
Process Solutions International

Over 30 years of oilfield experience!

MADE IN U.S.A. ISO 9001

PUMPS

- BARE SHAFT PUMPS**
 - Pump series: 118 & 250
 - Pump sizes: 3 x 2 x 13 to 8 x 6 x 14
 - Fully open impeller
- CLOSED COUPLING PUMPS**
 - Inline or space saver
 - Diesel or electric
 - Starters available
- SUPER MAK SELF-PRIMING PUMPS**
 - 3" and 4" options available
 - Interchangeable parts
 - Open vane impellers

PUMP PARTS Same-day shipping on parts!

- IMPELLER
- SUPREME HARD IMPELLER
- CASING KIT
- POWER END ASSEMBLIES
- MECHANICAL SEAL
- BEARING SEAL
- GLAND
- SHAFT SLEEVE
- STUFFING BOX
- PUMP BEARINGS

AGITATORS

- Low profile or Severe duty drop bearing
- Current designs to 76 hp
- Starters available

AGITATOR PARTS

- IMPELLER
- CTX AGITATOR CLAMP

PSI Process Solutions International The global leader in fluid handling equipment!

MAKDADDY

3" SUPER MAK Self-Priming Pump

Key Benefits

- Fresh Water - Sea Water - Drilling Mud
- Delivers improved performance, better longevity, and cost savings compared to other centrifugal pumps.
- Parts are completely interchangeable with other pumps currently on the market.
- Open vane impellers designed to reduce turbulence, eliminate recirculation, lower radial and thrust load while providing a smoother flow of fluid throughout the pump.
- Recessed impeller for reduced shearing in comparison to a 250 series pump.
- Guaranteed performance from a global company.

SIZE - SPECIFICATIONS - OPTIONS

Features

- Pump series: 3" SUPER MAK
- Pump sizes: 3" x 3" (76 mm x 76 mm) NPT - Female
- Casing: Gray Iron 30 Max Operating Pressure 88 psi (593 kPa)
- Semi-Open Type, Two Vane Impeller: 3" x 3" (76 mm x 76 mm) NPT - Female
- Impeller Shaft: Alloy Steel
- Shaft Sleeve: Alloy Steel
- Replaceable Wear Plates: Carbon Steel
- Removable Adjustable Cover Plate: Gray Iron 30
- Flap Valve: Neoprene w/Nylon and Steel Reinforcing
- Radial and Thrust Bearings: Open Single Row Ball / Double Row Ball
