

# Process Solutions International Expands Global Reach to Meet Rising Demand for Fluid Handling Equipment

*Process Solutions International expands operations from Midland, TX, boosting global access to advanced fluid handling solutions across five continents.*

MIDLAND, TX, UNITED STATES, January 24, 2025 /EINPresswire.com/ -- Process Solutions International (PSI), a trusted name in fluid handling equipment, proudly announces its latest expansion to enhance its global reach. This

strategic growth aims to meet the increasing demand for innovative and reliable solutions across industries, ensuring businesses worldwide have access to superior equipment and expert support.

“

This expansion reflects our dedication to delivering reliable fluid handling solutions that empower businesses and drive global progress.”

*Kye Keliehor*

With operations now spanning five continents, PSI continues to strengthen its presence in key markets. Known for its commitment to quality and customer-focused solutions, the company serves industries including oilfield drilling, water treatment, environmental remediation, and manufacturing. This expansion allows PSI to deliver faster service, tailored support, and solutions designed to optimize operations and productivity.

“Our goal has always been to provide our customers with the tools they need to succeed, no matter where they are,” said a PSI spokesperson. “This expansion reflects our dedication to empowering businesses by offering innovative fluid handling solutions that meet the challenges of today and tomorrow.”

## [Driving Innovation and Reliability](#)

Since its founding in 1991, PSI has developed a reputation for delivering high-performance equipment that withstands the demands of industrial environments. The company's diverse

product range includes industrial pumps, material handling equipment, and advanced cleaning filtration systems, all designed with durability, efficiency, and sustainability in mind.

Key features of PSI's solutions include:

**Tailored Designs:** Equipment engineered to address specific operational needs and maximize performance.

**Energy Efficiency:** Products designed to reduce energy consumption while maintaining high output.

**Ease of Maintenance:** Modular designs that simplify upkeep and minimize downtime.

**Strengthening Global Operations**  
PSI's expansion includes investments in advanced technologies, partnerships with local distributors, and the development of streamlined supply chain networks. By establishing a stronger presence in regions with high industrial growth, the company ensures that customers benefit from reduced lead times and personalized service.

The expansion also enables PSI to align closely with local regulations and industry standards, reinforcing its commitment to providing safe, efficient, and environmentally responsible solutions.

Empowering Industries for the Future

As industries worldwide face evolving challenges, PSI remains dedicated to delivering solutions that drive efficiency, sustainability, and long-term growth. Whether addressing complex fluid handling needs in remote drilling operations or optimizing systems for water treatment facilities, the company is steadfast in its mission to support businesses with reliable and innovative equipment.

Process Solutions International Agitators

Process Solutions International Centrifugal Pumps

With this latest chapter of growth, Process Solutions International solidifies its role as a global leader in fluid handling solutions. The company looks forward to continuing its legacy of excellence by helping businesses thrive in an ever-changing industrial landscape.

**PSI** Process Solutions International The global leader in fluid handling equipment!

**MAKDADDY**

**3" SUPER MAK Self-Priming Pump**

**Key benefits**

- Fresh Water - Sea Water - Drilling Mud
- Delivers improved performance, better longevity, and cost savings compared to other centrifugal pumps.
- Parts are completely interchangeable with other pumps currently on the market.
- Open vane impellers designed to reduce turbulence, eliminate recirculation, lower radial and thrust load while providing a smoother flow of fluid throughout the pump.
- Recessed impeller for reduced shearing in comparison to a 250 series pump.
- Guaranteed performance from a global company.

**SIZE - SPECIFICATIONS - OPTIONS**

**Features**

- Pump series: 3" SUPER MAK
- Pump sizes: 3" x 3" (76 mm x 76 mm) NPT - Female
- Casing: Gray Iron 30 Max Operating Pressure 86 psi (593 kPa)
- Semi-Open Type, Two Vane Impeller: 3" x 3" (76 mm x 76 mm) NPT - Female
- Impeller Shaft: Alloy Steel
- Shaft Sleeve: Alloy Steel
- Replaceable Wear Plate: Carbon Steel
- Removable Adjustable Cover Plate: Gray Iron 30
- Flap Valve: Neoprene w/Nylon and Steel Reinforcing
- Radial and Thrust Bearings: Open Single Row Ball / Double Row Ball

## Process Solutions International Makdaddy Self-Priming Pumps

**PSI** Process Solutions International Over 30 years of oilfield experience!

**PUMPS**

- BARE SHAFT PUMPS**
  - Pump series: 118 & 250
  - Pump sizes: 3" x 2" x 13 to 8" x 6" x 14
  - Fully open impeller
- CLOSED COUPLING PUMPS**
  - In-line or space saver
  - Diesel or electric
  - Starters available
- SUPER MAK SELF-PRIMING PUMPS**
  - 3" and 4" options available
  - Interchangeable parts
  - Open vane impellers

**PUMP PARTS** Same-day shipping on parts!

- IMPELLER
- SUPREME HARD IMPELLER
- CASING KIT
- POWER END ASSEMBLIES
- MECHANICAL SEAL
- BEARING SEAL
- GLAND
- SHAFT SLEEVE
- STUFFING BOX
- PUMP BEARINGS

**AGITATORS**

- Low profile or Severe duty drop bearing
- Current designs to 75 hp
- Starters available

**AGITATOR PARTS**

- IMPELLER
- CTX AGITATOR CLAMP
