

Middle East's Biggest event on Bitumen, Petrochemicals & Petroproducts to be held in Dubai

Dubai to host the biggest event on Bitumen, Petrochemicals & Petroproducts on February 4th & 5th 2025 at the Crowne Plaza Hotel Deira

DUBAI, DUBAI, UNITED ARAB EMIRATES, January 25, 2025 /EINPresswire.com/ -- The 14th Edition of the Rex Fuels Global Expo & Conference 2025 will take place on February 4th and 5th, 2025, at the Crowne Plaza Hotel in Deira, Dubai. The theme is focused on addressing the global energy trilemma—security, affordability, and sustainability—and the event aims to foster an open dialogue among key stakeholders to build a secure and sustainable energy future.

Rex Fuels Global Expo & Conference 2025 is set to bring together over 400 participants from 30+ countries along with 30+ exhibition stalls, all under one roof. The event will provide an unparalleled opportunity for industry professionals to connect, collaborate, and explore the latest advancements in bitumen, petrochemicals, and petroproducts.

India's Booming Infrastructure and Rising Bitumen Demand:

India's infrastructure development is surging, driven by the government's increasing capital expenditure (capex) on roads and railways. The Centre allocated Rs 2.64 lakh crore to the Ministry of Road Transport and Highways (MoRTH) in FY24, which was further increased to Rs 2.72 lakh crore in the FY2025 budget. This allocation is expected to rise again in FY26, reflecting India's ambitious plans for highway and infrastructure growth.

This unprecedented focus on infrastructure has significantly boosted demand for high-quality, durable bitumen. The Middle East, a key supplier to India, plays a critical role in supporting these projects, particularly through sustainable and polymer-modified bitumen technologies. The Rex Global Expo & Conference 2025 serves as a vital platform to strengthen these collaborations,
