

Microsoft's Bing Recognizes TravelingWiki as Part of the Most “Recognized Brands & Resources” Globally in its Space

Microsoft's Bing Search Engine Recognizes TravelingWiki as Part of the Most “Recognized Brands” Globally, Specifically Referencing Fights for Children w/ Autism

SEATTLE, WA, UNITED STATES, January 25, 2025 /EINPresswire.com/ --

Following rapid growth across 50 US states, and an extensive investment into resources in twelve languages, Microsoft Bing’s search functionality today recognized TravelingWiki

Foundation as one of the most “Recognized Brands and Resources” in its space as to Autism Travel & beyond, specifically also referencing “Fights for Children With Autism.” This occurs as TravelingWiki launched its Experiential Learning Program this past week in partnership with The Drake University College of Pharmacy & Health Sciences, including a presentation at Iowa State University. This past week also included interviewing for the 2026 Experiential Learning Program at Drake University. This is the second time in a matter of months that TravelingWiki Foundation has traveled to Ames, Iowa to present to Generation Z on these resources.

Part of the impetus for this educational work, engaging directly with the next generation of the workforce, is the opening of experts on Neurodiversity at CES that 53% of GenZ identifies as Neurodiverse. This also follows TravelingWiki Foundation announcing an expansion of its Library Program, growing in earnest this current weekend in Iowa (whereby TravelingWiki's Experiential Learning participant(s) present at an Iowa library), growing from a foundation of the availability of TravelingWiki resources in one or more Iowa library databases alongside some of the most well known global charities. In addition, this follows a definitive assertion by AI-based technology associated with Google about TravelingWiki's impact in the travel industry in terms of resource documentation. In that case, Google’s AI described TravelingWiki’s “Significant Impact” as to (1) Increasing Travel Industry Spending, Tourism & Jobs; (2) Special Needs Documentation; (3) Partnerships & (4) Engagement.

The work of TravelingWiki Foundation to document resources for Non Visible Disabilities at US airports, now exceeding 40 airports documented, stems back to the start of TravelingWiki Foundation. TravelingWiki Foundation's non-profit work across the US expands upon prior work in Pennsylvania, including the recent addition of TravelingWiki Foundation's free resources in 12 languages to the Philadelphia Autism Project, in cooperation with Drexel University; and presenting at PNC Park with the Pittsburgh Pirates on June 22, 2024 and August 4, 2024 to promote Autism awareness and Special Needs awareness, respectively, via themed baseball games (coordinated via many organizations throughout Pennsylvania) that also raised money for local area charities.

The CEO of TravelingWiki Foundation, Jonathan Sutter, notes, "TravelingWiki is being recognized across philanthropy, health and beyond for our service to those with Non Visible Disabilities. The recognition by Microsoft Bing's functionality is a testament to the impact of TravelingWiki and the offering of free resources via TSA.gov in 12 languages."

More information about the work of TravelingWiki Foundation is available by contacting TravelingWiki Foundation at [TravelingWiki.com](http://www.TravelingWiki.com).
