What could be a key driver behind this anticipated growth?

The growth of the pediatric population is expected to fuel the expansion of the hexyon market. The pediatric demographic, essentially ranging from birth up to 18 years old, encompasses infants, children, and adolescents. The increasing pediatric population may be attributed to improved healthcare, lower child mortality rates, and higher birth rates in certain regions. Hexyon offers an essential service to this population segment, providing comprehensive protection against multiple serious infectious diseases. By combining vaccines for diphtheria, tetanus, pertussis, hepatitis B, polio, and Hib into a single shot, Hexyon reduces the burden of multiple vaccinations and improves adherence.

Who are the key industry players influencing the Hexyon market?

In the Hexyon market, mega corporations such as the France-based Sanofi S.A. are the driving forces. The influence of these companies cannot be ignored when discussing market trends and growth.

So, what's the new trend in the [Hexyon industry](#)?

Major companies, such as Sanofi S.A., are focusing on facility expansion to gain a competitive edge in the industry. Facility expansion allows a business to enhance its physical space or infrastructure to support growth and improve services. For example, in November 2024, Sanofi inaugurated a \$596 million modular manufacturing facility in Singapore's Tuas Biomedical Park. This state-of-the-art site expands Sanofi's reach and ability to tackle future health challenges and hastens the delivery of essential treatments.

How is the [Hexyon market segmented](#)?

The Hexyon market can be segmented as follows:

1 By Product Type: Hexavalent Vaccines, Monovalent And Combination Vaccines

2 By Indication: Pediatric Immunization, Catch-Up Vaccination

3 By Distribution Channel: Hospitals, Clinics, Public Health Programs, Pharmacies

What about the geographical reach of the Hexyon market?

Europe was the largest region in the Hexyon market in 2024. However, Asia-Pacific is expected to be the fastest-growing region in the forecast period. The report covers several regions including Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.
