Why the PPN IPA?

The PPN IPA was founded with a multifaceted purpose: to secure better reimbursement rates with insurance companies, create new opportunities for growth, and provide economy-of-scale advantages to support the sustainability of private practices. This non-profit organization was built by therapists to represent therapists and empower them to navigate the challenges of modern healthcare with confidence and collective strength.

"Therapists in private practice face mounting pressures, from inadequate reimbursement rates to rising operational costs," said Steven Cohen, Administrator of PPN IPA.
