

Registering CAGR of 23.6% The Multivendor ATM Software Market Size Reach USD 6.23 Billion

WILMINGTON, DE, UNITED STATES, January 28, 2025 /EINPresswire.com/ -- Allied Market Research published a new report, titled, " Registering CAGR of 23.6% The [Multivendor ATM Software Market Size](#) Reach USD 6.23 Billion." The report offers an extensive analysis of key growth strategies, drivers, opportunities, key segment, Porter's Five Forces analysis, and competitive landscape. This study is a helpful source of information for market players, investors, VPs, stakeholders, and new entrants to gain thorough understanding of the industry and determine steps to be taken to gain competitive advantage.

The multivendor ATM software market size was valued at USD 1,139 million in 2018, and is projected to reach USD 6,234 million by 2026, growing at a CAGR of 23.6% from 2019 to 2026. Ongoing modernization of older ATM estates, increase in demand for modern ATM software and hardware, especially from financial sectors, and rise in awareness about benefits of multivendor ATM software have boosted the growth of the global multivendor ATM software market. Integration of new technologies such as QR codes, contactless payments, and touch screens are expected to create lucrative opportunities in the near future.

The independent ATM deployer segment held the largest share in 2018, accounting for more than half of the global multivendor ATM software market, owing to rapid growth of nonbank ATM sector. Moreover, the segment is projected to register the fastest CAGR of 24.8% during the study period. The global multivendor ATM software market report includes analysis of the banks & financial institutions segment.

Based on component, the software segment dominated the market in 2018, contributing nearly three-fifths of the market, owing to growing awareness regarding benefits of multivendor ATM software as it offers reduced time and easier software update. However, the service segment is projected to register the fastest CAGR of 25.8% during the forecast period, owing to increased use of advanced analytics for predictive maintenance in multivendor ATM support services.

Enquiry Before Buying: <https://www.alliedmarketresearch.com/purchase-enquiry/2982>

The market across Europe held the largest share in 2018, contributing more than two-fifths of the market, owing to increase in adoption of 'thin client' ATM architecture among European banks and increased purchasing power and sophisticated procurement processes. However, North America held second-highest share in 2018, contributing nearly one-third of the market. On the contrary, the global multivendor ATM software market across the Asia-Pacific region is estimated to register the fastest share in 2018, accounting for 30.5% during the forecast period. This is due to major shift toward open architectures due to rapid adoption of ATM hardware using Microsoft Windows operating system and adoption of TCP/IP-based networks.

The key players operating in the multivendor ATM software industry include Auriga SpA, Clydestone Group, Diebold Nixdorf, Incorporated, GRGBanking, KAL, Nautilus Hyosung America Inc., NCR Corporation, Printec Group, and Vortex Engineering Pvt. Ltd., Incorporated.
